SITUATION SERIOUS IN POLAND RUSSIA

**Warsaw and Other Cities Still
Having Labor Riots.**

GORKY WILL NOT BE HANGED

Rumors that the Great Russian Author Will Be Punished for High Treason Unfounded—It is Estimated that 100 Have Been Killed.

St. Petersburg, Jan. 31.—2:45 p.m.—The latest reports from Warsaw depict the situation throughout Poland as increasingly serious. Minor collisions between the troops and police and the populace continue to swell the number of dead.

Railroads and industries are completely at a standstill and the presence of thousands of idle workmen who have been out of employment for months, and are starving and desperate, adds a factor of the greatest danger which is not present to the same extent in St. Petersburg, where the government orders for war purposes have kept the factories busy.

The American vice consul at Warsaw, Witold Fouchas, telegraphs that many stories, chiefly Russian, have been pillaged by mobs, and that the factories, without exception, are now closed. A general strike is in effect. Those who are not willing to walk out are compelled to join the strike by threats. Mr. Fouchas saw no improvement in the situation up to last night and reported the receipt of bad news from Lodz and Radom.

It is estimated that the number of killed or wounded at Warsaw is about

MAXIM GORKY.

100, which is a conservative estimate.

The rioting in Poland will largely affect the economic situation. The factories at Warsaw, Lodz, Petrokov and other industrial centers in Poland have been compelled to gradually reduce their output and decrease their working forces since the outbreak of the war, which has almost entirely closed the Siberian and Manchurian markets. The result has been that thousands of workmen have been thrown out of employment for many months, furnishing a horde of hungry, dissatisfied, desperate men among whom when the news from St. Petersburg produced an outbreak of riots and incendiary spirit. It is feared that a large proportion of these thousands may be utilized by the revolutionary organizations in Poland, which is the boldest of Socialism and the movement may develop a early character though there is indication of a cooperation of the intelligent classes of the Polish population which are averse to a revolutionary movement.

The Nashazhine, a liberal newspaper of St. Petersburg, which has received a second warning from Governor General Trepoff in moderate tone raises the legal point in connection with the arrest of Jan. 22, that the law requires the police to exhaust all means to preserve order before calling on the troops and the Nashazhine claims that this was not done before the military began firing.

St. Petersburg, Feb. 1.—The report that Maxim Gorky may be hanged for high treason is without the slightest

foundation. Even his friends declare the rumor absurd. The expectation is that he will be released in a few weeks.

He was a member of the deputation of editors and literary men who called on M. Witte, president of the committee of ministers, Jan. 21, all of whom were arrested, but several of whom have already been released. The only charge against Gorky is that he was a member of the committee of three, which was appointed to collect funds for the strikers.

The Associated Press is informed on exceedingly high authority that the chances of the government meeting the present situation by granting a sort of zemskyabor (old Russian land parliament) is growing hourly brighter.

In the opinion of many Liberals the creation of such a body made up of representatives of all classes, which could, like the old states general of France, voice the needs and grievances of the people without intermediaries directly with the sovereign, would rally to the government's support all the Conservative and Liberal elements.

ON TRAIL OF MURDERER.

**Police Officials Believe They Will
Clear Up Colorado Mystery.**

Colorado Springs, Colo., Feb. 1.—Chief of Police Reynolds, of this city, who has been on the trail of Milton Franklin, suspected of having murdered Bessie Benton, has returned. He announces that he is convinced of two things, first, that the body found on Cutler mountain is that of Mrs. Bessie Bouton, of Syracuse, N. Y., and second, that Milton Franklin Andrews, of Hartford, Conn., is the Milton Franklin alias George Bouton, alias George Barnett, who has been responsible for her death. The chief says he will have a warrant issued at once for Franklin's arrest. He says that Franklin is in hiding in New York city, and that he has been traveling with a woman who calls herself his sister.

While in Syracuse, Chief Reynolds submitted a sample of the hair of the body of the dead woman to the Kempters, parents of Bessie Bouton, and it was identified as having belonged to the missing daughter.

The description of the dental work was identified also, and the height, weight and general description of the body tallied exactly with that of Bessie Bouton.

TENNESSEE RAILROAD SOLD.

Cincinnati and New York Brokers Acquire Valuable Property.

Knoxville Tenn., Feb. 1.—A special from Johnson City, Tenn., says: "It is learned through sources deemed reliable that the Clinchfield corporation and the South and West Railroad company have actually been sold to Eugene Zimmerman, of Cincinnati, and H. B. Hollins company, of New York, owners of the Cincinnati, Hamilton and Dayton railroad, and that the litigation between George L. Carter and some of the stockholders of the Clinchfield corporation and the South and West railroad is not over, the property itself, but over the proceeds of the sale.

It seems that Mr. Carter bought these properties for the Clinchfield corporation (of which he is a stockholder and director) for the sum of \$2,400,000, and immediately sold to Zimmerman & Hollins company for \$3,300,000, making a net profit of \$900,000. Now other stockholders are seeking to get a part of this \$900,000, while Mr. Carter claims it as his earnings in the deal.

The C. H. & D. interest, it is said, has already taken charge of the properties.

Condition of German Prince.

Potsdam, Feb. 1.—The physicians in attendance on Prince Eitel Friedrich issued the following bulletin this morning: "During the first half of the night the prince was restless on account of the pain and difficulty in breathing. He slept five hours after midnight. Temperature 101; pulse, 75. The inflammation of the right lung is diminishing. The left lung is unchanged. Coughing and irritation normal, but the patient is weak after the coughing spells."

BILL TO ABOLISH THE CANAL COMMISSION

**Leave Work Entirely In Hands
Of The President.**

OTHER NATIONAL CAPITAL NEWS

**Senator Bate, of Tennessee, Is Sworn
In for His Fourth Term—Beef Trust
Must Heed Supreme Court Injunction.**

Washington, Feb. 1.—The house committee on interstate and foreign commerce today authorized a favorable report on the Mann bill, abolishing the Panama canal commission and placing the government of the canal zone and the work of constructing the canal entirely in the hands of the president.

It can be said by authority that unless the corporations constituting the alleged "beef trust" shall heed the injunction made permanent by the decision of the supreme court of the United States yesterday, the government will institute proceedings against the individual members of the corporations to enforce the decision of the court.

The proceedings will be under the criminal law if such can be instituted. The minds of the president and members of his cabinet are made up fully on the question. They have determined that the "beef trust" shall obey the law, and that the highest court in the land has upheld the hands of the administration. It is said they will permit no further "dilly-dallying" with the subject.

Consul General Gudgeon at Panama cabled the navy department today as follows:

"Sackett (paymaster) better. Lehey (lieutenant) convalescent. Others improving."

In the House.

Before resuming consideration of the postoffice appropriation bill the house today adopted a resolution offered by Mr. Fitzgerald (N. Y.) calling on the secretary of the navy for information regarding the inequality in the amount of armor plate delivered for the battleships Connecticut and Louisiana.

In the Senate.

In the senate today Mr. Carmack presented the certificate of re-election of his colleague, Mr. Bate, to his fourth term. A bill was passed prohibiting express companies engaged in interstate and foreign commerce carrying obscene literature. It extends to other carriers, the provisions regulating the transmission of such matter by the mails. The bill had passed the house.

KILLED HIS FATHER.

Young Man Protects Mother at an Awful Cost.

Bainbridge, Ga., Feb. 1.—In order to protect his mother from the attack of his father, who, while in an intoxicated condition was attempting to take her life with a knife, Julian Lambert shot and killed his father, John B. Lambert, in this city.

Young Lambert had been here only a few weeks, being employed in the office of the Georgia, Florida and Alabama road. He was a quiet, well-behaved young man, and made a good impression upon the people of this city.

The coroner's jury brought in a verdict of justifiable homicide, and young Lambert was discharged. The body of Lambert was shipped to Augusta for interment.

Attempt to Scuttle Ship.

Pensacola, Fla., Feb. 1.—An attempt to scuttle the Italian bark Cesar was made at an early hour Monday morning, a hole being bored just below the water line, an inch and a quarter in diameter, through which water poured at a terrific rate. The attempt was discovered by the master before the vessel had drifted to any extent, and he caused the arrest of the chief carpenter. The vessel was loaded with pine along the side of the wharf and the anchor used in boring the hole was found in the forecabin.

VARDAMAN COMMENDS TERRELL

**Likes Attitude of Georgia's Governor
Bearing on Negro Troops.**

Jackson, Miss., Feb. 1.—Governor Vardaman sent the following telegram to Governor Terrell, of Georgia:

"Permit me to congratulate the white people of Georgia upon the character of their chief executive and to commend you, my dear sir, most heartily for your conduct in refusing to allow the state of Georgia to be dishonored by being represented at the inauguration of the president by a negro military company.

"This act will bring down upon your devoted head the severest condemnation of the negroes of the north, the office-bribed referees of the south and a few broad-minded and patriotic office-holders and political creatures of both sections, but nine-tenths of the decent, liberty-loving, self-respecting white people of the south commend your act.

"I thank God that a few of the faithful old guard are with us still; southern gentlemen in authority who cannot be bribed with federal patronage or debauched with presidential flattery. (Signed) James K. Vardaman."

LARGE BODY OF WORKMEN.

**Organized in New York City with an
Aggregate Membership of 75,000.**

New York, Feb. 1.—The largest central body of building trades ever organized in this city, the Associated Building Trades, has effected permanent organization. It contains 33 unions, directly engaged in the building trades with an aggregate membership of 75,000, and is a much stronger body than the old board of building trades, of which Sam Parks was president.

Arbitration difficulties are provided for by the constitution which states that strikes will be a last resort. Within a week a committee will be appointed to wait on the building trades employers' association and demand a conference to end the present lock-out and enter into a joint conference, which may be held, of representatives of unions and employers to formulate new arbitrary agreement.

LAD'S WIT SAVED HOUSE.

**Little Fellow Smelled Smoke and
Gives Fire Alarm.**

New York, Feb. 1.—George Washington Clintankamp proved himself a worthy namesake of the Father of His Country.

George is 3 years old, and was born in Frances Tavern, a historic building in Broad street, where Washington once had his headquarters.

While at play on the second floor the little fellow smelled smoke and gave the alarm. A hurried examination by men whom George summoned, failed to disclose the cause of the smoke and the firemen were called. They tore up part of the floor and found several heavy oak beams smoldering, ready to burst into flames.

The lad's intelligence saved the old house from being badly damaged, and he was hailed by the entire neighborhood as a hero.

Princess Undergoes Operation.

London, Feb. 1.—Princess Victoria, daughter of King Edward, underwent an operation for appendicitis at Buckingham palace this morning. The operation was performed by Sir Frederick Treves, surgeon in ordinary to the king. A bulletin subsequently issued, says: "The circumstances of the operation were favorable. The princess bore it very well, and is progressing very satisfactorily." The princess, who has been ill for some time, came to London Jan. 27 to prepare for the operation she was born in 1858.

Actress Dies of Burns.

Cincinnati, Feb. 1.—As the play goes in a local theater awaited the appearance of Mamie Hayburn, a concert singer, she rushed out of her dressing room, a living torch, and ran shrieking through the theater. Several men threw their coats over her and a bucket of water, finally putting out the flames, but the singer, burned from head to foot and suffering horribly, is dying in a hospital today. Only the prompt action by men in the theater prevented a dangerous panic.

FIGHTING CONTINUES IN THE FAR EAST

**Japanese Are Repulsed By Gen-
eral Kuropatkin's Army.**

JAPS CAPTURE BRITISH VESSEL

**Mikado's Men Are Distributing Letters
Among Russians Telling Them of the
Riots in St. Petersburg and Other
Cities—Other Far East News.**

Mukden, Jan. 30.—Delayed in Transmission.—This morning the Japanese advanced on the Russian left, drove in the cavalry screen and bombarded the outlying hills. The Russians moved up reinforcements, repulsed the Japanese and drove them out of the village they had occupied.

Constant streams of wounded men are arriving from the right flank including Lieutenant General Mischenko, who is in excellent spirits and is receiving visitors. According to the official army organ the wounded number 3,500. The cold is intense and the condition of the wounded causes the greatest anxiety, because of the exposure of their wounds to the frost induces gangrene. Preventive precautions have been taken, but the wounded are suffering the greatest pain.

The Japanese are taking good care to see that the Russian rank and file are not left uninformed regarding the disturbances in Russia. They are carrying on a regular campaign to spread sedition and discouragement among the troops. Letters are daily thrown within the Russian lines declaring that all Russia is aflame with riot and revolt, arguing that the soldiers are shedding their blood in vain, and calling on them to surrender or desert. The soldiers eagerly read and discuss these communications, especially accounts of the events at St. Petersburg Jan. 22. The sincere hope is expressed on all sides that the Russian nation will forego internal differences and not play into the hands of the Japanese.

Japs Capture British Steamer.

Tokio, Feb. 1.—The Japanese yesterday captured off Hokkaido island, northern Japan, the British steamer Winfield loaded with contraband for Vladivostok.

The steamer Wyefield, Captain Watson, sailed from San Francisco Dec. 26 for Comox. She arrived there Jan. 2, and left that port Jan. 6 for Moji. The Wyefield is owned by J. P. Lawson (H. P. Rithel & Co., Limited) of Victoria, B. C.

Russian Works Occupied.

Tokio, Jan. 31.—11 a.m.—It is believed that the loss of Heikontaal will be strongly defended by the Japanese, who are now occupying the Russian works. As the ground is frozen, it is practically impossible to construct new works.

1,200 Dead Left by Russians.

London, Jan. 31.—2:15 p.m.—A dispatch to the Japanese legation dated today says Field Marshal Oyama reports that the Russians have left 1,200 dead on the field since Jan. 25.

Alleged Murderer Captured.

Birmingham, Ala., Feb. 1.—Ed Johnson, negro, alleged murderer and criminal assailant of Miss Belle Bloodworth, of Decatur, Ala., on Saturday night a week ago, has been captured at Warrior and placed in the Jefferson county jail. He denies having been in Decatur at all and stoutly asserts his innocence. Decatur parties will be sent here to identify the man.

Confederate Shaft for Macon.

Macon, Ga., Feb. 1.—There is no longer the slightest doubt that the monument to be erected in front of the new auditorium in memory of the women of the confederacy will be a handsome affair. The \$5 contributions are coming in from all directions, and the chances are that a \$2,000 base can be erected by April 26, which is memorial day throughout the south.

LAND OFFICE ENJOYS IMMENSE BUSINESS

It Will Aggregate More Than
\$100,000 Annually.

THE FORCE IS KEPT BUSY

Attending to Various Branches of the Department Which Dishes Out Government Lands to Home Seekers—January Report.

It will probably be a surprise to the majority of people to learn of the immense business transacted annually in the United States land office in this city. The business will easily aggregate on an average of more than \$100,000, as the books of the office will show.

There is probably nowhere in the employ of the government service a more competent or more obliging force than those who have the destinies of the public lands of Florida. The entire force is courteous and obliging, and always pleased to impart information concerning the public lands, the mode of procedure in making homestead entries, final proofs, etc. Register Robinson and Receiver Chubb have directed the affairs of the land office in a most systematic manner, with the result that they are in such condition that any desired record or paper can be found without a moment's delay.

The office force consists of Louis C. Lynch, chief clerk, and a clerical force of L. J. Clyatt, J. E. Wainwright and Harold Arnold. This force are hard and competent workers, which is best evidenced by the great volume of business transacted through the office yearly.

Chief Clerk Lynch has furnished The Sun with the following report of business for the month of January:

116 homestead entries, 13951.39 acres; 46 final homestead entries, 5243.77 acres; 18 military B. land warrants, 2274.99 acres; 6 agricultural college scrip, 957.74 acres; 72 excess cash entries, 307.34 acres; 1 soldiers' D. S., 160 acres; 1 timber and stone entry, 160 acres.

UNDER TWO FLAGS.

Park Theatre Company Entertained Another Big House Last Night.

The popularity of the Park Theatre Company, who opened a week's engagement under canvas here Monday evening, is best attested by the great throngs who congregate under the big tent at each performance. The crowds have grown nightly, which means nothing but approval of the productions.

At the matinee yesterday afternoon the audience comprised largely ladies and children. By special request Mr. Park repeated "The Fatal Wedding," which had been presented as the opening bill. The audience was delighted with the play, as well as the specialties between the acts.

In the evening the company presented that thrilling drama, "Under Two Flags." This production is full of excitement and thrilling experiences. It was well staged and well played.

This afternoon the company will present, at matinee, "The Convict's Daughter," a comedy drama in four acts. The admission at the performance will be 25 cents for adults, 15 cents for children, to any part of the house. No reserved seats. This evening will be presented that touching drama which will never grow old, "East Lynne."

It has been noted that many do not come until after the curtain has risen on the first act. The management desires to state that the performances begin promptly at 8 o'clock in the evening.

The management also desires to state that the tent is perfectly comfortable and absolutely waterproof, hence there will be no risk in attending.

President Returns to Washington.

Washington, Feb. 1.—President Roosevelt and party returned to Washington from Philadelphia this morning on a special train, reaching the Pennsylvania station at 4:30 a. m. It was 7:40 a. m. when the president left the train, and after greeting the members of his party entered his carriage and was driven direct to the White House, where he breakfasted with his family.

DREAD OF HUMANITY

I am compelled by a sense of gratitude to tell you the great good your remedy has done me in a case of Contagious Blood Poison. Among other symptoms I was severely afflicted with Rheumatism, and got almost past going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus. I lost in weight, was run down, had sore throat, eruptions, spots and other evidences of the disease. I was truly in a bad shape when I began the use of S. S. S., but the persistent use of it brought me out of my trouble safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S. S., and to recommend it to all blood-poison sufferers, sincerely believing if it is taken according to directions, and given a fair trial, it will thoroughly eliminate every particle of the virus. JAMES CURRAN, Stark Hotel, Greensburg, Pa.

Painful swellings in the groins, red eruptions upon the skin, sores in the mouth and loss of hair and eyebrows, are some of the symptoms of this vile disease. S. S. S. is an antidote for the awful virus that attacks and destroys even the bones. S. S. S. contains no Mercury, Potash or other mineral ingredient. We offer \$1,000 for proof that it is not absolutely vegetable. Home treatment book giving the symptoms and other interesting and valuable information about this disease, mailed free. Our physicians advise free those who write us.

HYDE'S FRUIT SAFE.

By Perseverance and Firing Crop of Nearly 400 Boxes Was Saved.

The Ocala Evening Star of Monday, January 30, says of the grove owned by George W. Hyde of this city:

"Tom Pritchett came up from Candler today, and had with him a twig on which were oranges from the Geo. W. Hyde grove, which passed through the freeze all right, but it was done by hard work for three nights in firing the grove. The grove has nearly 400 boxes of fruit on it. Mr. Pritchett employed six men to assist him, and during the cold wave the fires were not allowed to go down. He said the mercury ranged from 26 to 36 degrees. He is very proud of his success, and sold 100 boxes to Ocala dealers, which more than easily paid the freight. The twig with its fruit is in The Star office."

Croup

Begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough, apply frequently Ballard's Snow Liniment to the throat.

Mrs. A. Villet, New Castle, Colo., writes, March 19th, 1901: "I think Ballard's Horehound Syrup a wonderful remedy, and so pleasant." 25c, 50c and \$1. Sold by W. M. Johnson.

Trademarks.

The practice of employing a mark to denote the goods of a particular trader grew out of the use of signs, which were of great antiquity, but it is difficult to assign a date to the origin of trademarks proper. They were apparently in use in the time of Elizabeth, but the first recorded case is in 1783, when it was decided that the sale of a certain medicine under the mark of another trader was fraudulent.

No satisfactory law was passed, however, until 1862, when the first British trademark registry was established. This law was repealed by the patent designs and trademarks act of 1883, the principal clauses of the old act being incorporated into this new one, and all proceedings for the registration of trademarks are now regulated by the patents acts, a special branch of the patent office being devoted to this work.

A CARD TO PATRONS.

Principal Kellum Anxious That They Should Watch Children.

Attention, Patrons: The first half of the present school term closed last Friday, January 27th, and I deem this an opportune time to have a word with each patron. Owing to the lack of time, it is impossible to see each one personally; I therefore take this method of having a word with each.

Every teacher has and is laboring earnestly for the advancement of your children. We need your assistance constantly, and urge it now, as the reports of the examinations of the fourth month reach you. Look over the cards carefully and see if the marks are what you think your child capable of—if not, then please investigate.

The teachers can only instruct the pupils; it is impossible to study for them. Insist on text books being brought home for private evening study, as the short space between recitations is insufficient for study, especially in the higher grades where the work demands outside study and research. Note the marks in attendance and punctuality and if below one hundred endeavor to see that your child is present every day and on time. Please sign the card and return in three days.

Help us and we promise good work.

Respectfully,
J. G. KELLUM.

Health

Means the ability to do a good day's work, without undue fatigue and to find life worth living. You cannot have indigestion or constipation without it's upsetting the liver and polluting the blood. Such a condition may be best and quickest obtained by Herbine, the best liver regulator that the world has ever known. Mrs. D. W. Smith writes, April 8, 1902: "I use Herbine, and find it the best medicine for constipation and regulating the liver I ever used." Price 50 cents. Sold by W. M. Johnson.

License Notice.

I was not supplied with license blanks until the day court convened last October. The State's Attorney asked me to report at that session of court, but in view of the fact that the blanks had not been furnished me in time for licenses to be issued, he consented to my making no report at that time, but instructed me to have report ready for spring term of court, which convenes this month, and to file information with him against all who did not comply with this requirement of the law by this court.

There are quite a number of business and professions who have not as yet complied with this law. I am now getting up this list, and those who have not taken out such licenses, if they desire not to be included on this list, must attend to this matter very soon.

Respectfully,
W. D. DICKINSON.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It is the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

TURNER A BAD COON.

Dug Way Under Micanopy Jail and Made Escape, But Arrested Here.

Deputy Sheriff C. H. Chrisman of Micanopy Tuesday took Nelson Turner, a negro arrested here upon his instruction, to Micanopy. Turner was wanted by the Micanopy authorities upon a charge of jail breaking. Several weeks ago he was arrested by Officer Chrisman for gambling and placed in the town jail. During the night he dug his way under the ground and gained his freedom, since which time he has been at large up to Monday, when he was arrested here.

Turner is a "hot proposition" sure enough. Since his escape from the Micanopy jail he was arrested here by Deputy Sheriff Granger, who caught him, with five others, in a crap game. He was arraigned before Justice Colman and fined \$25 and costs, which he promptly paid and was released from custody.

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Barford of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy, for I have used it with perfect success. My child, Garland, is subject to severe attacks of croup, and it always gives him prompt relief." For sale by all druggists.

Rogers Gets Life Sentence.

Mobile Ala., Feb. 1.—Henry Rogers, convicted recently in the United States court of robbing the mails and jeopardizing the life of the mail carriers near Evergreen, Ala., has been sentenced to the Atlanta penitentiary for life by Judge Toumin.

When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This remedy liquefies the tough mucous and causes its expulsion from the air cells of the lungs, produces a free expectoration and opens the secretions. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment, and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by all druggists.

The Attraction.

Prim Mother—My son, I am afraid you are going to make a mistake in marrying Miss Easyways. Both she and her mother are fearfully fat housekeepers. Son—I know it, mother, that's what caught me. It's so comfortable over there, you know. I can sit down anywhere in the parlor without being told that I'm mousing things up!—Detroit Free Press.

MILL MEN TO MEET.

Cotton Manufacturers of South Georgia Gather in February.

Quitman, Ga., Feb. 1.—A meeting of the cotton mill men of south Georgia has been called to meet at Thomasville, Ga., Wednesday, Feb. 1, at 12 o'clock noon. The meeting is called to discuss matters in relation to the mill business in this part of the state.

Representatives have been invited to be present from Strickland mills, Remeton, Ga.; Tifton cotton mills, Tifton, Ga.; Moultrie cotton mills, Moultrie, Ga.; Pelham Manufacturing company, Pelham, Ga.; Poulan cotton mills, Poulan, Ga.; Fitzgerald cotton mills, Fitzgerald, Ga.; Hawkinsville cotton mills, Hawkinsville, Ga.; Dublin cotton mills, Dublin, Ga.; Cochran cotton mills, Cochran, Ga., and the Atlantic and Gulf mills, Quitman, Ga.

Itch—Ringworm.

E. T. Lucas, Wingo, Ky., writes, April 25th, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me permanently. Since then I have used the liniment on two separate occasions for ringworm and it cured completely. 25c, 50c and \$1 bottle. Sold by W. M. Johnson.

Entangled in a Live Wire.

If a person is tangled in a live electric wire and you want to extricate him therefrom do not take hold of the victim's hands, as is often done in a case of this kind. You will be shocked if you do. Be sure to grab the clothes alone, and then you are safe, and the current cannot reach you. Do not let anything come in contact with your bare hands but his coat and trousers. Of course if you have thick leather gloves on you can handle with impunity the individual in distress.

Another Case of Rheumatism Cured by Chamberlain's Pain Balm.

The efficacy of Chamberlain's Pain Balm in the relief of rheumatism is being demonstrated daily. Parker Triplett of Grigsby, Va., says that Chamberlain's Pain Balm gave him permanent relief from rheumatism in the back when everything else failed, and he would not be without it. Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored. We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longhill hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 25, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family, could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1902, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."

E. H. BURNELL, Lincoln, Ind.
Dr. Miles' Nervine is sold by your druggist, and will guarantee that the first bottle will benefit. If it fails, he will refund your money.

No one can win success who fails to put individuality into their work, and who is goaded by the desire to rush it through regardless of results. "No how much, but how well," should be the motto of every young man, and those who adhere to it will become competent and their services will be in demand.

The man who is the possessor of a piece of land has the game in his own hands. There is no promoter or stock gambler who can jeopardize his investment. Where it is purchased with judgment land is always worth the money paid for it and it is bound to increase in value. It cannot be destroyed or carried away. It requires only industry to make it profitable and productive. It constitutes a source of independence in any condition of the money market and amid all of the mutations of speculative enterprises.

NOTHING TO FEAR.

Although there may be times when it would seem to those who are the least bit inclined to pessimism that the way seems burdensome to those who are struggling for the advancement and progress of the fair State of Florida, our resources are so inexhaustible that there are hardly any obstacles—at least none have yet appeared—that are insurmountable by the sturdy sons of the Peninsular State or our adopted citizens who have come here to make their home, being driven from their Northern homes by the elements that rob them of health, which, taken from the human family, also means unhappiness.

Within the past few days the people of Florida have been put to the test, and by the destructive elements of wind and cold our very existence seemed threatened. Some despaired, while others were inspired by the injunction that "the Lord helps those who help themselves," and went to work to do battle with the elements. While the prospect was gloomy, the result has shown that the men who are determined in their efforts are not heavy losers, and there will only be a smaller supply, many crops having been saved.

But the soil of Florida is so varied that other crops than those that are so generally grown can be planted, and the trucker, although checked for a time in his labors, can turn to most any vegetable grown and in a short time produce a crop that is always in demand.

A rotation of crops is also a good thing for the producer, for by so doing the market is less liable to become glutted in one particular line, and in consequence the prices will range higher and what has seemed a misfortune at first glance, will in the end prove a benefit.

Many people who come to Florida are in search of a home where they can escape the severe weather of the North, and many wonder if the country is growing colder. From statistics one learns that in 1768 all the lime, citron and banana trees were killed by frost in the vicinity of St. Augustine, as well as many curious evergreens on the St. Johns River, and from time to time since that time we have had reverses that have done temporary damages, which have proven a blessing in later years, as they have turned the attention of the husbandmen to less hazardous pursuits.

With so favored a climate and thousands of delicate people in our midst in search of health, the least severity in the weather is heralded to all quarters of our country; yet at its worst it is far preferable to the more rigid climates, and the invalid foregoes the one or two days of disagreeable weather, while the farmer knows there is no great calamity in store for him, and he has nothing to fear—no cause to give up in despair.

Sunshine will soon come, flowers will bloom, it will be summer time in the "land of sunshine and flowers."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

RELIGIOUS GROWTH.

The common idea that religion is on the decadence and that the various "sects" are not holding their own in proportion to the increase of population is shown not to hold good by authentic statistics just made public in the Presbyterian Hand Book for 1905. They show by the official figures a larger percentage of increase by nearly all the various sects in proportion to population than in any previous year. Such is notably the case in the Episcopal church, which last year gained three per cent on its membership of the previous year, while the population growth is estimated at about two per cent. In the Presbyterian church the increase in membership was at the ratio of 25 per cent. The Methodist gain was 18 per cent. It is further stated in the Presbyterian Hand Book for 1905 that the religions of the world have 1,430,000,000 adherents, divided as follows:

Christianity	477,080,158
Confucianism	266,000,000
Hinduism	180,000,000
Mohammedanism	178,834,372
Buddhism	147,900,000
Taoism and Shintoism	57,000,000
Judaism	7,056,000
Various heathen faiths	118,129,479

The adherents of Christianity are divided into the following branches:

Roman Catholics	230,868,533
Protestants	143,237,625
Greek Church	88,016,000
Church of Abyssinia	300,000
Coptic Church	120,000
Armenian Church	1,690,000
Nestorians and Jacobites	150,000

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills the dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

Don't Shoot Him or You'll Get as Crazy as a Coot.

Never hear tell of a king gander, I s'pose? No; most folk hadn't. The sharps that write the bird books says there ain't no such thing, but I know better. I've seen one.

There ain't never but one king gander at a time, same's a country never has but one king at a time, but a king gander's a real king, that's what he is. It ain't just because he's the biggest gander of any or the knowin'est. It's somethin' more. He's kind of a sacred gander, he is, and there ain't a wild goose that flies but knows it. He's captain of 'em all, an' it's only the pick of the geese that flies with him.

Ner that ain't all neither. What do you s'pose became of that big king gander Bill shot? Ever hear of a dead gander bein' carried off by his flock, restin' on their backs an' them a-boukin' out a reg'lar buryin' dirge? Well, I've said enough. Fact is I've said all I dare say.

But I tell you this: If ever you have a chance to shoot a king gander don't you do it. 'Tain't good luck. If you don't believe it look at my brother Bill. He killed one—leastways he shot him—and then what happened? Only the Lord and Bill Huckins knows. An' Bill 'll never tell. Why not? 'Cause he's been as crazy as a coot ever since—yes, sir, crazy as a coot!—Outing.

FOOD AND WEATHER.

Why People Eat More in Winter Than They Do in Summer.

It has been shown that the consumption of food increases in direct proportion to the decrease in temperature. We eat more in winter than in summer, and the inhabitants of the temperate regions require more food than those of the tropic zone.

This is due to several causes. In the first place air is denser in colder climates and more oxygen is taken in with each breath, so that a greater supply of carbon-derived from food—is necessary in order that the two gases may combine in their proper proportions for the maintenance of bodily heat. Again, the inhabitant of a cold climate usually has to work harder than the more fortunate southerner, whose wants decrease as nature becomes more generous. The harder the daily labor the greater the amount of food required.

Climate not only affects the quantity but also the quality of the food consumed. The Eskimo could not live upon the dainties of nature which load the tables of the poorest in the tropics, for the conditions of his existence require the consumption of an enormous amount of fatty matter, so that blubber is to him a chief necessary of life.

MARRIED TWENTY WOMEN.

Famous Bigamist and Forger in the Hands of Gotham Police.

New York, Feb. 1.—Johann Hoch, who, it is alleged, married 20 women, was arrested at a boarding house conducted by Mrs. Catherine Kimmerle, in West Forty-seventh street by Central office detectives. He admitted his identity, although when first arrested gave the name of Henry Bartels.

At the Forty-seventh street station, where he was taken, he said:

"I'm Hoch, and a much abused man."

"How abused?" he was asked.

He had nothing to say. He gave his name as John Joseph Adolph Hoch, said he was 45 years old, a machinist by trade, living in Chicago. He is arrested on a charge of bigamy. Hoch is known under the names of Alfred Hecht, Albert Buschburg, Joseph Hoch, Jacob Hoch and Adolph Brumm.

OFFICERS KILL BAD NEGRO.

Latter Wounded Both Men While Resisting Arrest.

Wilmington, N. C., Feb. 1.—While resisting arrest at the home of his mother, at Council Station, on the Seaboard Air Line, Henry Lloyd, a desperate negro, was shot and killed by Policeman Croom, of Wilmington, and Deputy J. A. Meador, of Bladen county, last night.

The negro was wanted in Wilmington for shooting two young white men a week ago. He was located near Council Station, and the officers went to arrest him. They were compelled to force the door, and just as they entered the house Lloyd crept from under the bed and opened fire. Meador was shot in the arm and Croom in the leg. They returned the volley and the negro was struck three times, one ball penetrating the brain and causing instant death. The officers were exonerated by a coroner's jury.

SIX CONVICTS MAKE ESCAPE.

Prisoner Are Well Known to Officers Who Expect to Catch Them.

Atlanta, Feb. 1.—There was a bold and successful jail delivery at the city stockade early Monday morning and six white men made their escape. In the dead hours of night, when the guards thought all the convicts were asleep, six white men were at work removing a steel bar which stood between the man and liberty. About 1 o'clock at night they removed the bar and all six quietly jumped through the window to the ground, a distance of 3 or 4 feet, and slipped off into the woods.

The escape of the six prisoners was reported to the police and efforts are being made to capture them.

Immigration Very Heavy.

Washington, Feb. 1.—For the six months ended Dec. 31 last, 400,069 immigrants were admitted to the United States against 323,641 for the corresponding period of 1902 and 403,960 for the corresponding period of 1903. During the first six months of the present fiscal year the immigration from Russia was the heaviest in the history of the immigration bureau, aggregating 86,197, against 57,189 and 69,683 for the corresponding periods in 1902 and 1903. The total number of immigrants refused admittance during the past six months was 4,645. For the corresponding periods in the two previous years those debarred aggregated 3,333 and 4,011.

Dividends Show a Decrease.

New York, Feb. 1.—Industrial dividends payable in February show a marked decrease, according to The Journal of Commerce as compared with the same month a year ago. The total stands about \$15,342,000 against \$19,364,000. There are a number of important changes this year. There are some other dividends to come not yet declared which will swell the total possibly to the extent of \$1,000,000. Some of these, however, may be carried into the following month.

Captain Hobson's Father Dead.

Birmingham, Ala., Feb. 1.—A special from Greensboro says that Judge James M. Hobson, father of Captain Richmond Pearson Hobson, died at that place this morning of pneumonia, aged 68. Judge Hobson was probate judge of Hale county for 18 years. Soon after his son's Merrimac feat, Judge Hobson, although a Democrat, was appointed by President McKinley as postmaster at Greensboro, which office he held until death. His wife died last year.

He Subsided.

Husband—Did you ever notice, my dear, that a loud talker is generally an ignorant person? Wife—Well, you needn't talk so loud. I'm not deaf.

Statue of Woman Physician Unveiled. New York, Feb. 1.—What is said to be the first statue erected in honor of a woman physician in the United States has been unveiled in Fullerton Memorial hall at the Art Institute, when the friends of the late Dr. Mary Harris Thompson presented a portrait bust of her to the institute. Dr. Thompson was the founder in 1868 of the Mary Thompson hospital for women and children, and was the pioneer woman physician of the northwest. The memorial cost \$2,250, and is the work of Daniel C. French.

Alabama Man Kills Wife.

Jasper, Ala., Feb. 1.—Marion Earnest, a well known white man, shot and killed his wife near Drifton. He is said to have been intoxicated when the deed was committed. He escaped after the killing, and has not been apprehended.

Agonizing Burns.

Are instantly relieved, and perfectly healed, by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully—that it blistered all over. Bucklen's Arnica Salve stopped the pain, and healed it without a scar." Also heals all wounds and sores. 25c at all druggists.

A CHARTER FOR ASSOCIATION.

The New Concern Will Have Headquarters in New Orleans.

New Orleans, Feb. 1.—The legal name of the cotton pool formed by the executive committee of the Southern Cotton association has been fixed as "The Southern planters' commission and holding company."

The charter has been drafted by the ablest lawyers of this city and the domicile will be in New Orleans. The executive committee of the Southern Cotton association will finally endorse the completed details of the pool at its meeting in Atlanta on the 7th of Feb. It has been agreed that W. P. Brown, the noted cotton bull operator, member of the local cotton exchange, will be the president, and President Abraham Britton, of the local Cotton Exchange, and S. P. Walmsley and Frank B. Hayne, members of this exchange, will be vice presidents, with J. H. Whyte, of New Orleans, secretary. The meetings will be held in every township of the cotton belt on the 11th of next month, to perfect the organization of the farmers.

The warehousing committee of the Southern Cotton association meets here on the 4th of next month to complete its report to the executive committee of that association.

MARRIAGE IN MEXICO.

The Engagement and Wedding Ceremonies Are Celebrated.

The Mexican people are hospitable to guests, always welcoming their friends even though they have not enough to eat themselves. And they religiously visit the sick, including those who have contagious diseases. They are also addicted to public social functions, the favorite mode of entertainment being the dance. They are fond of music, though not proficient in the art of making it, probably more from lack of opportunity than from lack of capacity. The violin and guitar are the usual instruments of music, the repertoire of the local musicians being usually limited to a few tunes which are in equal demand for the dance and for the funeral.

One of the most interesting and beautiful of the social functions is the pre-dinner. When a young man wishes to marry he asks for the girl of his choice of the parents, not of the girl herself, and if she is given the pre-dinner at once follows, ushered in by shooting and demonstrations of joy. The bride and bridegroom are publicly presented to their future parents-in-law, after which the company pass in procession in front of the couple, each one dropping a piece of money into the hands of the bride. Then follows the inevitable dance. This public betrothal is considered almost as binding as marriage, and I have heard of but one instance in which the compact was not kept, the recalcitrant bridegroom in that case being visited with ostracism. The betrothal is usually followed by marriage just as soon as the services of the priest can be secured. The marriage ceremony is followed by a feast more notable for the abundance of things to drink than for things to eat and by the usual dances. Indeed the festivities are often prolonged for several nights after the wedding.—Southern Workman.

THE AGE OF STARS.

Color Aids the Astronomer in Making His Calculations.

As a star contracts from the surrounding nebulous matter from which it was thrown off its temperature rises, and with this augmented heat occurs a change both in the star's spectrum and color. Red-hot iron is not nearly so hot as white-hot iron. By observing the various changes in tint which the metal undergoes the foundryman is able to tell with considerable accuracy its degree of heat. A somewhat similar method of gauging a star's temperature, and therefore its age, is relied upon by the astronomer. Color, then, and spectroscopic analysis enable the astronomer to estimate the age of stars that are only beginning to exist as stars and others whose light is fast fading.

After having conglutinated, as it were, from a nebulous mass, a star assumes a color that may be best described as an intense bluish white, much like that of the electric arc. Stars of that hue are, therefore, in their infancy. Then comes the white stage, followed by the yellow, orange and red, each succeeding hue indicating greater celestial antiquity than the last. Up to the yellow period the star as it contracts grows hotter and hotter. Then a gradual cooling takes place. Accompanying the changes in color are changes in the spectrum of the star—changes that indicate a modification in physical structure. In the bluish white period of a star's infancy the characteristic wide lines of hydrogen gas predominate in the spectrum. As the color changes, the lines of calcium, magnesium and iron appear, the hydrogen lines gradually becoming thinner and those of calcium broader.—Booklovers Magazine.

Traffic in Human Skin.

The skin grafting experiments which have been so successful of recent years have led to a new form of livelihood, which is fairly remunerative. Several of the London hospitals have on their books the names and addresses of many men and women who have undertaken to sell portions of their cuticle whenever the necessity arises, and it is said that quite a regular traffic is now being done in the buying and selling of human skin. The persons who are willing to sacrifice their flesh for money are by no means confined to the poor and destitute class.—London Mail.

The Postal Union.

The first step toward the formation of the postal union, which has been made by the republics, came from Germany in the shape of a proposal for an international postal congress. This met at Bern in 1872, when twenty-two countries joined the union, including the whole of Europe. A second congress met in Paris in 1878, when ten other countries came in, and the official title, "International Postal Union," was definitely fixed. Its sphere was further enlarged at congresses at Lisbon in 1885 and at Vienna in 1891.

Some one asks whether success is due to luck, pluck or brains. The answer is easy—all three.

Men and Clocks.

She—A clock is different from a man. He—In what respect? She—When it strikes it keeps on working.

Understanding Poker.

The women believe that every man knows all about poker, but only a few men do. It is true, however, that nearly every man pretends to understand the game thoroughly. When there is a poker joke at a theater all the men smile and look at their women folks with a sort of pity, but the fellows who smile know very little about the game and are afraid to play it, for in almost every little social affair connected with chips and pairs there is a tin-horn gambler industriously engaged in working chumps. The few men who really understand poker have a habit of winning the money of the men who pretend to understand it, so the large majority of men know nothing about the game further than that a good hand is hard to get.—Atchison Globe.

And She Believed It.

"Henry," said his wife, "what do you need to take so many bottles along for when you're only going fishing?"

"So we can have something to cork up messages in and throw overboard, dear," he replied, "if anything should happen to the boat."

"Oh, I see. Well, do be careful, Henry. I shall be awfully uneasy."—Chicago Tribune.

No Business Depression.

"Is your business good?" asked the burglar of the counterfeiter.

"Good!" repeated the counterfeiter. "Well, I should say it was. I have been just coining money."

A Woman's No.

"Of course two negatives make an affirmative."

"But when there is a woman in the case one is sufficient."—New York Press.

There is no knowledge that is not power.—Emerson.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." Sold under guarantee by all druggists at 50c a bottle.

Notice of Application for Charter, Etc.

Notice is hereby given that on the 18th day of February, A. D. 1905, or as soon thereafter as practicable, the undersigned incorporators will apply to His Excellency, the governor of the State of Florida, at Tallahassee, Florida, for Letters Patent for the proposed charter given below, in accordance with the statutes in such cases made and provided.

READ THIS.

Mobile, Ala., Dec. 24, 1890.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking The Texas Wonder, Hall's Great Discovery, and being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder." Yours truly, W. B. CLARK.

M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. Box 829, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Our labor contract saves possible loss from advances made to employees. Price: 50 or less by mail, 3½ cents each; \$3 per hundred; cash with order. THE SUN, Gainesville, Fla. daw

The large show windows at the drug store of W. M. Johnson are being replastered and otherwise improved. Dr. Johnson says he proposes to have two of the most attractive windows in the city.

E. B. Godwin of High Springs was among the business visitors to this city yesterday. Mr. Godwin was a member of the firm of G. W. East-erlin & Co., who recently had the misfortune to lose their store by fire. They expect to resume business in a short time.

After a pleasant visit of several days to her parents, Mr. and Mrs. E. J. Baird, East Gainesville, Miss Laura Baird returned yesterday to Jacksonville, where she is receiving instructions in St. Luke's Hospital for a trained nurse. The numerous friends of this young lady were glad to welcome her home again.

With a desire to keep up with the times and supply their customers with the latest beverages, the Gainesville Bottling Works have added several new creations in the soft drink line, which are destined to become popular. This firm, composed of Davis & Brooks, is one of the oldest and most reliable in this section. The service has always been prompt, the products all that could be desired, and the proprietors courteous and obliging. This accounts for the success the concern has been enjoying, and will continue to enjoy.

ANOTHER FREEZE PREDICTED.

Chief O'Neill of Fire Department Asks That Faucets be Closed.

Another freeze is predicted for tonight, and Chief O'Neill of the Gainesville Fire Department requests all users of water to close their faucets, as in case of fire it would be difficult to secure proper pressure.

Chief O'Neill states that there is a municipal law prohibiting the running of faucets, and this law will be enforced in this instance upon all parties detected in violation. This is done for the safety of property in event of fire.

Miss Knight Will Build.

It is rumored that Miss Hattie Knight, for several years engaged in the hotel business at High Springs, will begin at once the erection of a hostelry at Homosassa. It will be remembered that the Homosassa Inn, one of the best hotels in that section, was destroyed by fire recently. It was a favorite resort for sportsmen, and during the season enjoyed a fine business. This left the place without a hotel, and Miss Knight has taken advantage of the situation to build at a point where success is assured.

SITUATION SERIOUS IN POLAND RUSSIA

Warsaw and Other Cities Still
Having Labor Riots.

GORKY WILL NOT BE HANGED

Rumors that the Great Russian Author Will Be Punished for High Treason Unfounded--It Is Estimated that 100 Have Been Killed.

St. Petersburg, Jan. 31.--2:45 p.m.--The latest reports from Warsaw depict the situation throughout Poland as increasingly serious. Minor collisions between the troops and police and the populace continue to swell the number of dead.

Railroads and industries are completely at a standstill and the presence of thousands of idle workmen who have been out of employment for months, and are starving and desperate, adds a factor of the greatest danger which is not present to the same extent in St. Petersburg, where the government orders for war purposes have kept the factories busy.

The American vice consul at Warsaw, Witold Fouchas, telegraphs that many stories, chiefly Russian, have been pillaged by mobs, and that the factories, without exception, are now closed. A general strike is in effect. Those who are not willing to walk out are compelled to join the strike by threats. Mr. Fouchas saw no improvement in the situation up to last night and reported the receipt of bad news from Lodz and Radom.

It is estimated that the number of killed or wounded at Warsaw is about

MAXIM GORKY.

100, which is a conservative estimate. The rioting in Poland will largely affect the economic situation. The factories at Warsaw, Lodz, Petrokoff and other industrial centers in Poland have been compelled to gradually reduce their output and decrease their working forces since the outbreak of the war, which has almost entirely closed the Siberian and Manchurian markets. The result has been that thousands of workmen have been thrown out of employment for many months, furnishing a horde of hungry, dissatisfied, desperate men among whom when the news from St. Petersburg produced an outburst of riots and incendiary spirit. It is feared that a large proportion of these thousands may be utilized by the revolutionary organizations in Poland, which is the hotbed of Socialism and the movement may develop a surly character though there is indication of a co-operation of the intelligent classes of the Polish population which are averse to a revolutionary movement.

The Nashazhizn, a liberal newspaper of St. Petersburg, which has received a second warning from Governor General Trepoft in moderate tone raises the legal point in connection with the firing of Jan. 22, that the law requires the police to exhaust all means to preserve order before calling on the troops and the Nashazhizn claims that this was not done before the military began firing.

St. Petersburg, Feb. 1.--The report that Maxim Gorky may be hanged for high treason is without the slightest

foundation. Even his friends declare the rumor absurd. The expectation is that he will be released in a few weeks.

He was a member of the deputation of editors and literary men who called on M. Witte, president of the committee of ministers, Jan. 21, all of whom were arrested, but several of whom have already been released. The only charge against Gorky is that he was a member of the committee of three, which was appointed to collect funds for the strikers.

The Associated Press is informed on exceedingly high authority that the chances of the government meeting the present situation by granting a sort of zemsky zabor (old Russian land parliament) is growing hourly brighter.

In the opinion of many Liberals the creation of such a body made up of representatives of all classes, which could, like the old states general of France, voice the needs and grievances of the people without intermediaries directly with the sovereign, would rally to the government's support all the Conservative and Liberal elements.

ON TRAIL OF MURDERER.

Police Officials Believe They Will Clear Up Colorado Mystery.

Colorado Springs, Colo., Feb. 1.--Chief of Police Reynolds, of this city, who has been on the trail of Milton Franklin, suspected of having murdered Bessie Benton, has returned. He announces that he is convinced of two things, first, that the body found on Cutler mountain is that of Mrs. Bessie Bouton, of Syracuse, N. Y., and, second, that Milton Franklin Andrews, of Hartford, Conn., is the Milton Franklin alias George Bouton, alias George Barnett, who has been responsible for her death. The chief says he will have a warrant issued at once for Franklin's arrest. He says that Franklin is in hiding in New York city, and that he has been traveling with a woman who calls herself his sister.

While in Syracuse, Chief Reynolds submitted a sample of the hair of the body of the dead woman to the Kempters, parents of Bessie Bouton, and it was identified as having belonged to the missing daughter.

The description of the dental work was identified also, and the height, weight and general description of the body tallied exactly with that of Bessie Bouton.

TENNESSEE RAILROAD SOLD.

Cincinnati and New York Brokers Acquire Valuable Property.

Knoxville Tenn., Feb. 1.--A special from Johnson City, Tenn., says: "It is learned through sources deemed reliable that the Clinchfield corporation and the South and West Railroad company have actually been sold to Eugene Zimmerman, of Cincinnati, and H. B. Hollins company, of New York, owners of the Cincinnati, Hamilton and Dayton railroad, and that the litigation between George L. Carter and some of the stockholders of the Clinchfield corporation and the South and West railroad is not over, the property itself, but over the proceeds of the sale.

It seems that Mr. Carter bought these properties for the Clinchfield corporation (of which he is a stockholder and director) for the sum of \$2,400,000, and immediately sold to Zimmerman & Hollins company for \$3,500,000, making a net profit of \$900,000. Now other stockholders are seeking to get a part of this \$900,000, while Mr. Carter claims it as his earnings in the deal.

The C. H. & D. interest, it is said, has already taken charge of the properties.

Condition of German Prince.

Potsdam, Feb. 1.--The physicians in attendance on Prince Eitel Friedrich issued the following bulletin this morning: "During the first half of the night the prince was restless on account of the pain and difficulty in breathing. He slept five hours after midnight. Temperature 101; pulse, 70. The inflammation of the right lung is diminishing. The left lung is unchanged. Coughing and irritation normal, but the patient is weak after the coughing spells."

BILL TO ABOLISH THE CANAL COMMISSION

Leave Work Entirely In Hands
Of The President.

OTHER NATIONAL CAPITAL NEWS

Senator Bate, of Tennessee, Is Sworn In for His Fourth Term--Beef Trust Must Heed Supreme Court Injunction.

Washington, Feb. 1.--The house committee on interstate and foreign commerce today authorized a favorable report on the Mann bill, abolishing the Panama canal commission and placing the government of the canal zone and the work of constructing the canal entirely in the hands of the president.

It can be said by authority that unless the corporations constituting the alleged "beef trust" shall heed the injunction made permanent by the decision of the supreme court of the United States yesterday, the government will institute proceedings against the individual members of the corporations to enforce the decision of the court.

The proceedings will be under the criminal law if such can be instituted. The minds of the president and members of his cabinet are made up fully on the question. They have determined that the "beef trust" shall obey the law, and that the highest court in the land has upheld the hands of the administration. It is said they will permit no further "dilly-dallying" with the subject.

Consul General Gudgeon at Panama cabled the navy department today as follows:

"Sackett (paymaster) better. Lehey (lieutenant) convalescent. Others improving."

In the House.

Before resuming consideration of the postoffice appropriation bill the house today adopted a resolution offered by Mr. Fitzgerald (N. Y.) calling on the secretary of the navy for information regarding the inequality in the amount of armor plate delivered for the battleships Connecticut and Louisiana.

In the Senate.

In the senate today Mr. Carmack presented the certificate of re-election of his colleague, Mr. Bate, to his fourth term. A bill was passed prohibiting express companies engaged in interstate and foreign commerce carrying obscene literature. It extends to other carriers, the provisions regulating the transmission of such matter by the mails. The bill had passed the house.

KILLED HIS FATHER.

Young Man Protects Mother at an Awful Cost.

Bainbridge, Ga., Feb. 1.--In order to protect his mother from the attack of his father, who, while in an intoxicated condition, was attempting to take her life with a knife, Julian Lambert shot and killed his father, John B. Lambert, in this city.

Young Lambert had been here only a few weeks, being employed in the office of the Georgia, Florida and Alabama road. He was a quiet, well-behaved young man, and made a good impression upon the people of this city.

The coroner's jury brought in a verdict of justifiable homicide, and young Lambert was discharged. The body of Lambert was shipped to Augusta for interment.

Attempt to Scuttle Ship.

Pensacola, Fla., Feb. 1.--An attempt to scuttle the Italian bark Cesar was made at an early hour Monday morning, a hole being bored just below the water line, an inch and a quarter in diameter, through which water poured at a terrific rate. The attempt was discovered by the master before the vessel had sailed to any extent, and he caused the arrest of the chief carpenter. The vessel was loading pitch pine along the wharf and the anger used in boring the hole was found in the forecabin.

VARDAMAN COMMENDS TERRELL

Likes Attitude of Georgia's Governor Bearing on Negro Troops.

Jackson, Miss., Feb. 1.--Governor Vardaman sent the following telegram to Governor Terrell, of Georgia:

"Permit me to congratulate the white people of Georgia upon the character of their chief executive and to commend you, my dear sir, most heartily for your conduct in refusing to allow the state of Georgia to be dishonored by being represented at the inauguration of the president by a negro military company.

"This act will bring down upon your devoted head the severest condemnation of the negrophiles of the north, the office-bribed referees of the south and a few broad-minded and patriotic office-holders and political creatures of both sections, but nine-tenths of the decent, liberty-loving, self-respecting white people of the south commend your act.

"I thank God that a few of the faithful old guard are with us still; southern gentlemen in authority who cannot be bribed with federal patronage or debauched with presidential flattery. (Signed) James K. Vardaman."

LARGE BODY OF WORKMEN.

Organized in New York City with an Aggregate Membership of 75,000.

New York, Feb. 1.--The largest central body of building trades ever organized in this city, the Associated Building Trades, has effected permanent organization. It contains 32 unions, directly engaged in the building trades with an aggregate membership of 75,000, and is a much stronger body than the old board of building trades, of which Sam Parks was president.

Arbitration difficulties are provided for by the constitution which states that strikes will be a last resort. Within a week a committee will be appointed to wait on the building trades employers' association and demand a conference to end the present lock-out and enter into a joint conference, which may be held, of representatives of unions and employers to formulate new arbitrary agreement.

LAD'S WIT SAVED HOUSE.

Little Fellow Smelled Smoke and Gave Fire Alarm.

New York, Feb. 1.--George Washington Clintenkamp has proved himself a worthy namesake of the Father of His Country.

George is 3 years old, and was born in Frances Tavern, a historic building in Broad street, where Washington once had his headquarters.

While at play on the second floor the little fellow smelled smoke and gave the alarm. A hurried examination by men whom George summoned, failed to disclose the cause of the smoke and the firemen were called. They tore up part of the floor and found several heavy oak beams smoldering, ready to burst into flames.

The lad's intelligence saved the old house from being badly damaged, and he was hailed by the entire neighborhood as a hero.

Princess Undergoes Operation.

London, Feb. 1.--Princess Victoria, daughter of King Edward, underwent an operation for appendicitis at Buckingham palace this morning. The operation was performed by Sir Frederick Treves, surgeon in ordinary to the king. A bulletin subsequently issued, says: "The circumstances of the operation were favorable. The princess bore it very well, and is progressing very satisfactorily." The princess, who has been ill for some time, came to London Jan. 27 to prepare for the operation she was born in 1868.

Actress Dies of Burns.

Cincinnati, Feb. 1.--As the play goes in a local theater awaited the appearance of Mamie Rayburn, a concert singer, she rushed out of her dressing room, a living torch, and ran shrieking through the theater. Several men threw their coats over her and a bucket of water, finally putting out the flames, but the singer, burned from head to foot and suffering horribly, is dying in a hospital today. Only the prompt action by men in the theater prevented a dangerous panic.

Japanese Are Repulsed By General Kuropatkin's Army.

JAPS CAPTURE BRITISH VESSEL

Mikado's Men Are Distributing Letters Among Russians Telling Them of the Riots in St. Petersburg and Other Cities--Other Far East News.

Mukden, Jan. 30.--Delayed in Transmission.--This morning the Japanese advanced on the Russian left, drove in the cavalry screen and bombarded the outlying hills. The Russians moved up reinforcements, repulsed the Japanese and drove them out of the village they had occupied.

Constant streams of wounded men are arriving from the right flank including Lieutenant General Mitchenko, who is in excellent spirits and is receiving visitors. According to the official army organ the wounded number 3,500. The cold is intense and the condition of the wounded causes the greatest anxiety, because of the exposure of their wounds to the frost induces gangrene. Preventive precautions have been taken, but the wounded are suffering the greatest pain.

The Japanese are taking good care to see that the Russian mail and file are not left uninformed regarding the disturbances in Russia. They are carrying on a regular campaign to spread sedition and discourage among the troops. Letters are daily thrown within the Russian lines declaring that all Russia is aflame with riot and revolt, arguing that the soldiers are shedding their blood in vain, and calling on them to surrender or desert. The soldiers eagerly read and discuss these communications, especially accounts of the events at St. Petersburg Jan. 22. The sincere hope is expressed on all sides that the Russian nation will forego internal differences and not play into the hands of the Japanese.

Japs Capture British Steamer.

Tokio, Feb. 1.--The Japanese yesterday captured off Hokkaido island, northern Japan, the British steamer Winfield loaded with contraband for Vladivostok.

The steamer Wyefield, Captain Watson, sailed from San Francisco Dec. 30 for Comox. She arrived there Jan. 2, and left that port Jan. 6 for Moji.

The Wyefield is owned by J. P. Lawson (R. P. Rithel & Co., Limited) of Victoria, B. C.

Russian Works Occupied.

Tokio, Jan. 31.--11 a.m.--It is believed that the loss of Helikoutai will be strongly defended by the Japanese, who are now occupying the Russian works. As the ground is frozen, it is practically impossible to construct new works.

1,200 Dead Left by Russians.

London, Jan. 31.--2:15 p.m.--A dispatch to the Japanese legation dated today says Field Marshal Oyama reports that the Russians have left 1,200 dead on the field since Jan. 25.

Alleged Murderer Captured.

Birmingham, Ala., Feb. 1.--Ed Johnson, negro, alleged murderer and criminal assailant of Miss Belle Bloodworth, of Decatur, Ala., on Saturday night a week ago, has been captured at Warrior and placed in the Jefferson county jail. He denies having been in Decatur at all and stoutly asserts his innocence. Decatur parties will be sent here to identify the man.

Confederate Shaft for Macon.

Macon, Ga., Feb. 1.--There is no longer the slightest doubt that the monument to be erected in front of the new auditorium in memory of the women of the confederacy will be a handsome affair. The \$3 contributions are coming in from all directions, and the chances are that a \$2,000 base can be erected by April 26, which is memorial day throughout the south.

Jackson, Miss., Feb. 1.—Governor Vardaman sent the following telegram to Governor Terrell, of Georgia:

"Permit me to congratulate the white people of Georgia upon the character of their chief executive and to commend you, my dear sir, most heartily for your conduct in refusing to allow the state of Georgia to be dishonored by being represented at the inauguration of the president by a negro military company.

"This act will bring down upon your devoted head the severest condemnation of the negrophiles of the north, the office-bribed referees of the south and a few broad-minded and patriotic office-holders and political creatures of both sections, but nine-tenths of the decent, liberty-loving, self-respecting white people of the south commend your act.

"I thank God that a few of the faithful old guard are with us still; southern gentlemen in authority who cannot be bribed with federal patronage or debauched with presidential flattery. (Signed) James K. Vardaman."

LARGE BODY OF WORKMEN.

Organized in New York City with an Aggregate Membership of 75,000.

New York, Feb. 1.—The largest central body of building trades ever organized in this city, the Associated Building Trades, has effected permanent organization. It contains 32 unions, directly engaged in the building trades with an aggregate membership of 75,000, and is a much stronger body than the old board of building trades, of which Sam Parks was president.

Arbitration difficulties are provided for by the constitution which states that strikes will be a last resort. Within a week a committee will be appointed to wait on the building trades employers' association and demand a conference to end the present lock-out and enter into a joint conference, which may be held, of representatives of unions and employers to formulate new arbitrary agreement.

LAD'S WIT SAVED HOUSE.

Little Fellow Smelled Smoke and Gives Fire Alarm.

New York, Feb. 1.—George Washington Clintenkamp has proved himself a worthy namesake of the Father of His Country.

George is 3 years old, and was born in Frances Tavern, a historic building in Broad street, where Washington once had his headquarters.

While at play on the second floor the little fellow smelled smoke and gave the alarm. A hurried examination by men whom George summoned, failed to disclose the cause of the smoke and the firemen were called. They tore up part of the floor and found several heavy oak beams smoldering, ready to burst into flames.

The lad's intelligence saved the old house from being badly damaged, and he was hailed by the entire neighborhood as a hero.

Princess Undergoes Operation.

London, Feb. 1.—Princess Victoria, daughter of King Edward, underwent an operation for appendicitis at Buckingham palace this morning. The operation was performed by Sir Frederick Treves, surgeon in ordinary to the king. A bulletin subsequently issued, says: "The circumstances of the operation were favorable. The princess bore it very well, and is progressing very satisfactorily." The princess, who has been ill for some time, came to London Jan. 27 to prepare for the operation. She was born in 1868.

Actress Dies of Burns.

Cincinnati, Feb. 1.—As the play goes in a local theater awaited the appearance of Mamie Rayburn, a concert singer, she rushed out of her dressing room, a living torch, and ran shrieking through the theater. Several men threw their coats over her and a bucket of water, finally putting out the flames, but the singer, burned from head to foot and suffering horribly, is dying in a hospital today. Only the prompt action by men in the theater prevented a dangerous panic.

FIGHTING CONTINUES IN THE FAR EAST

Japanese Are Repulsed By General Kuropatkin's Army.

JAPS CAPTURE BRITISH VESSEL

Mikado's Men Are Distributing Letters

Among Russians Telling Them of the Riots in St. Petersburg and Other Cities—Other Far East News.

Mukden, Jan. 30.—Delayed in Transmission.—This morning the Japanese advanced on the Russian left, drove in the cavalry screen and bombarded the outlying hills. The Russians moved up reinforcements, repulsed the Japanese and drove them out of the village they had occupied.

Constant streams of wounded men are arriving from the right flank including Lieutenant General Mitchenko, who is in excellent spirits and is receiving visitors. According to the official army organ the wounded number 3,500. The cold is intense and the condition of the wounded causes the greatest anxiety, because of the exposure of their wounds to the frost induces gangrene. Preventive precautions have been taken, but the wounded are suffering the greatest pain.

The Japanese are taking good care to see that the Russian rank and file are not left uninformed regarding the disturbances in Russia. They are carrying on a regular campaign to spread sedition and discouragement among the troops. Letters are daily thrown within the Russian lines declaring that all Russia is aflame with riot and revolt, arguing that the soldiers are shedding their blood in vain, and calling on them to surrender or desert. The soldiers eagerly read and discuss these communications, especially accounts of the events at St. Petersburg Jan. 22. The sincere hope is expressed on all sides that the Russian nation will forego internal differences and not play into the hands of the Japanese.

Japs Capture British Steamer.

Tokio, Feb. 1.—The Japanese yesterday captured off Hokkaido island, northern Japan, the British steamer Winfield loaded with contraband for Vladivostok.

The steamer Wyfield, Captain Watson, sailed from San Francisco Dec. 30 for Comox. She arrived there Jan. 2, and left that port Jan. 6 for Moji.

The Wyfield is owned by J. P. Lawson (R. P. Rithel & Co., limited) of Victoria, B. C.

Russian Works Occupied.

Tokio, Jan. 31.—11 a.m.—It is believed that the loss of Heikoutai will be strongly defended by the Japanese, who are now occupying the Russian works. As the ground is frozen, it is practically impossible to construct new works.

1,200 Dead Left by Russians.

London, Jan. 31.—2:15 p.m.—A dispatch to the Japanese legation dated today says Field Marshal Oyama reports that the Russians have left 1,200 dead on the field since Jan. 25.

Alleged Murderer Captured.

Birmingham, Ala., Feb. 1.—Ed Johnson, negro, alleged murderer and criminal assailant of Miss Belle Bloodworth, of Decatur, Ala., on Saturday night a week ago, has been captured at Warrior and placed in the Jefferson county jail. He denies having been in Decatur at all and stoutly asserts his innocence. Decatur parties will be sent here to identify the man.

Confederate Shaft for Macon.

Macon, Ga., Feb. 1.—There is no longer the slightest doubt that the monument to be erected in front of the new auditorium in memory of the women of the confederacy will be a handsome affair. The \$5 contributions are coming in from all directions, and the chances are that a \$2,000 base can be erected by April 25, which is memorial day throughout the south.

APPLICANTS MAY NOW GET READY

List of Text Books for Coming Examination Announced.

ARE THE SAME AS LAST YEAR.

Information Prepared by County Superintendent Kelley for Benefit of Those Desiring to Acquaint Themselves in Ample Time.

Dr. J. L. Kelley, county superintendent of public instruction for Alachua county, has received instruction from State Superintendent W. M. Holloway which will prove of valuable information to those intending to enter the June examination for positions as teachers.

Superintendent Holloway states that there will be no changes in the books used in the last examination. The following is a complete list of books to be used, together with the price and place where they may be obtained:

Orthography—Reed's Word Lessons (25 cents), by Maynard, Merrill & Co., New York.

Reading—Any standard author will answer.

Composition—Butler's School English (75 cents), by American Book Co., New York or Atlanta.

Arithmetic—Milne's Standard (85 cents), by American Book Co.

English Grammar—Metcalf's (80 cents), by American Book Co.

United States History—Field's Grammar School (\$1), by American Book Co.

Florida History—Green's or Fairbanks' (\$1.25), by H. & W. B. Drew Co., Jacksonville, Fla.

Geography—Redway's Natural Advanced (\$1.25), by American Book Co.

Physiology—Coleman's Elements (90 cents), by McMillan Co., Atlanta, Ga.

Civil Government in Florida—Yocum's (50 cents), by E. O. Painter & Co., DeLand, Fla.

Algebra—White's School (\$1), by American Book Co.

Physical Geography—Tarrs New (\$1), by McMillan Co., Atlanta, Ga.

Theory and Practice—McMurry's, the Method of the Recitation (90 cents), by McMillan Co., Atlanta, Ga.

These books may be had of most book dealers in the State, or from the publishers on receipt of price.

Dr. Kelley requests The Sun to publish the above for general information, so that all who desire may be informed of the books that will form the basis of examination.

The Requirements.

The law requires that third-grade certificates shall be issued to any eligible applicant who in the uniform examination in orthography, reading, arithmetic, English grammar, United States history, geography, physiology, theory and practice of teaching and composition shall have made a grade in no branch below 40 per cent, and an average grade of 60 per cent in all the above branches. A third grade certificate shall be valid for two years from date of issue.

A second grade certificate is issued to all applicants who comply with the requirements for a third grade certificate and in civil government, algebra and physical geography, and who shall have made a grade in no branch below 60 per cent, and an average grade of 80 per cent in all the above branches. A first grade certificate is good for five years from the date of issue.

Dr. Kelley will be pleased to furnish any further desired information.

Center Notes.

Center, January 31.—Mrs. Ola Beckham of Rochelle is here on a visit to Mr. Beckham's parents, Mr. and Mrs. L. R. Joyner.

Mrs. John Townsend returned Sunday from a visit of several days at McIntosh.

M. N. Baker of Campville has moved to this place.

A majority of the farmers of this section expect to plant heavily in vegetables the coming spring. J. F. Townsend is preparing for a large crop of Irish potatoes. A few declare they are going to stick to the staple crop—cotton and corn.

Poisons in Food.

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of undigested food—or money back. 25c at all drug stores. Try them.

IT WILL KEEP

It is not always necessary to use a whole bottle of Scott's Emulsion. What is left will keep. We have seen a bottle of our Emulsion three years old that is still good. What other preparation of cod liver oil will keep sweet and permanent for half that length of time? Scott's Emulsion is always reliable because it's always absolutely pure.

We'll send you a sample free.

SCOTT & BOWNE, 409 Pearl Street, New York

DESCRIPTION WAS WRONG.

Hon. Chas. Hodge Says Somebody Took Undue Liberties in His Case.

Hon. Chas. Hodge of Alachua, candidate for the Legislature in the last campaign, who had the misfortune to become a victim of a recent robbery near Alachua, when a colored man assaulted him and took from his person \$4.60 and a rubber stamp, was in the city Monday. The Sun contained an account of this, and a few days later a description said to have been furnished by Mr. Hodge of the man who performed the rash act.

Mr. Hodge states that this description was incorrect, as he never had time to make the minute observations. The party giving the description was entirely wrong, and was not authorized to do so. The accurate description, as far as Mr. Hodge could get it under the circumstances, was: Negro, very black; about five and one-half feet high; weight about 160 pounds; had on striped overalls, slightly worn in the seat, as was observed while he was running. The man wore cuff buttons shape of a smoothing-iron, which appeared to be gold.

HONOR TO MRS. PHILLIPS.

Was Elected to Office in State Federation of Woman's Clubs.

At the meeting of the State Federation of Woman's Clubs held at Miami, the following officers were elected for the ensuing year: President, Mrs. R. P. Adams of Palatka; 1st vice-president, Mrs. J. S. Frederick of Miami; 2nd vice-president, Mrs. Price of Ormond; recording secretary, Miss Cathryn Thorp of Daytona; treasurer, Mrs. Brash of Tampa; corresponding secretary, Miss Mary Crosby of San Mateo; auditor, Mrs. N. D. Phillips of Gainesville; corresponding secretary to general federation, Mrs. W. W. Cummer of Jacksonville.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & Co., Toledo, Ohio.

Sold by all druggists, 75 cts. Take Hall's Family Pills for constipation.

Enjoyed Their Stay.

A letter to The Sun from Mrs. S. V. Duke, White Springs, instructs the changing of her address to Lake City. Mr. and Mrs. Duke and Miss Brown have been at the Springs for several days. Mrs. Duke writes that they have been having a nice time, and that the village is crowded with strangers who are there for the excellent bathing in the sulphur spring, which contains wonderful medical virtues.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Women find quick relief in Dr. Thacher's Liver and Blood Syrup.

THE W. C. T. U. FOUNTAIN.

Everything Has Arrived, and Fountain Will Soon be in Position.

The basement of the fountain to be erected by the Woman's Christian Temperance Union has arrived, and Tuesday C. D. Schafer, the marble cutter, was engaged in properly shaping up the huge piece of stone, which weighs nearly a thousand pounds.

The foundation is a flat slab of Bedford stone, which was shipped from Indiana. It is a simple-looking little slab, and the ordinary person would think that he could turn it over with little effort. It is very heavy, however, and would require the efforts of three or four ordinary men to budge it.

The fountain, or trough, has been here for some time, awaiting the arrival of the foundation. This is of bronze, and of very handsome effect. It will be a monument to the W. C. T. U. and a credit to the city.

Mr. Schafer is working upon the foundation, which will be laid as soon as completed. It is estimated that the fountain will be completed within the next two weeks. It will be located on the east side of the square.

Tax Assessor's Notice.

I shall meet the tax-payers of the following places on the dates set opposite:

Tax Assessor.

Minister Swallows Steel Drill.

Louisville, Jan. 31.—A prominent Louisville minister while in a dentist's chair recently, swallowed a steel drill 1½ inches long, which became loosened from the holder. The reverend gentleman has been subjected three times unsuccessfully to the X-ray. The name of the minister is withheld at his request upon the ground that publicity would bring him into unpleasant notoriety and operate to his disadvantage in the pulpit by distracting the attention of his hearers from what he was saying to thoughts of the accident.

Street Car Service Impeded.

New York, Jan. 31.—Service on many street cars operated by underground trolley suspended because of last week's great storm, have not yet been reopened although thousands of men have been at work clearing the tracks. The chief trouble has been found in cleaning out the conduits. One of the most important lines still blocked is that on Eighth avenue passing along the western border of Central park. No cars are running north of Fifty-eighth street, and it is expected the line will be out of service for some days to come.

German Cruiser Leaves Charleston.

Charleston, S. C., Jan. 31.—The German cruiser Moltke, which has been in port nearly two weeks, sailed Sunday morning and the officers, cadets and sailors on board will next set foot upon their native soil. The cruiser's men have been royally entertained while here, and all the boats in the harbor saluted with whistles and flags as the vessel steamed out of the harbor.

ALACHUA COUNTY.

Alachua county is 806,400 acres in area, has 248 miles railroad, 900 miles wagon road, 56 postoffices, 123 public schools, 27 phosphate plants, 20 saw mills, \$75,000 court house, five newspapers, and produces corn, cotton, rice, sugar, oats, rye, potatoes, pineapples, oranges, peaches, pears, plums, pecans, and all kinds of vegetables.

Gainesville, the County Seat.

Has fourteen churches, two public schools, the East Florida Seminary, private schools, three newspapers, United States land office, the best water, fire alarm system, electric and gas lights, two ice factories, machine shops, three wood factories, cotton gin, two moss factories, three railroads, two fertilizer manufacturing companies, one fiber manufacturing, one rectifying turpentine plant, two banks, and well stocked stores embracing everything in the commercial line.

DR. THACHER'S Liver and Blood Syrup

CURES BY REMOVING THE CAUSE
A THREE-FOLD REMEDY for all ills due to functional troubles. Acts on the Liver and Kidneys and Purifies the Blood.

Thousands have used this reliable remedy with perfect confidence and success for 52 years, because they know just what it contains.

The formula consists of Buchu, Hydrangea, Mandrake, Yellow Dock, Dandelion, Sarsaparilla, Gentian, Senna and Iodide of Potassium.

Any doctor or druggist will tell you that this is a scientific and reliable combination of great merit for all diseases having their origin in the Liver, Kidneys or Blood. After years of experience and patient experiment, Dr. Thacher so perfected the process of manufacture, that it never fails to bring the expected relief when taken according to directions.

Thousands of sick ones to whom life has been a burden have written grateful letters of thanks.

SPED, MISSISSIPPI, Oct. 17, 1902.

"I have suffered greatly with indigestion, constipation, also a severe liver trouble, with loss of appetite. Could not rest well at night; in fact, had no energy to work or even walk around. I felt like I was packing a heavy load and was easily exhausted, until I took Dr. Thacher's Liver and Blood Syrup, which helped me almost from the first dose. When I had taken one and one-half bottles I felt like a different man, and I knew that it was due entirely to your medicine. I used in all three bottles, and consider myself perfectly cured. At this time my appetite is good, I sleep well, and feel strong and refreshed on arising in the morning."

SCHOOL TRUSTEES WIN BIG VICTORY

U. S. Court of Appeals Sustains
Judgment of U. S. Court.

OVER \$5,000 WAS INVOLVED

Suit Was Brought Against United States Fidelity and Guaranty Company, Bondsmen, for Non-Fulfillment of Contract on Gainesville School.

The United States Circuit Court of Appeals of New Orleans has recently rendered a decision which means a great deal for the Gainesville Graded and High School, enriching the treasury to the extent of more than five thousand dollars. In other words, the court at New Orleans has affirmed the decision of the United States Court for the Northern District in Florida, at Jacksonville, which was rendered in favor of W. W. Hampton, George W. Hyde and Jas. H. Vidal, as trustees for the Gainesville sub-school district.

The judgment was against the United States Fidelity and Guaranty Company, bondsmen for the contractor, for the non-fulfillment of contract in the construction of the Gainesville Graded and High School building. The amount involved was \$4,115.20, being a deficit in the contract of R. P. Williams & Co. of Decatur, Ga. The case was brought in the circuit court of Alachua county, but upon motion of attorneys for the defendant, was transferred to the United States Court for the Northern District of Florida, where a verdict for the principal and costs, aggregating \$5,130.28, was returned. The defendant then made appeal to the United States Court at New Orleans, with the result stated.

The original contract, so the board of trustees state, was \$15,813.50. The deficit was the money advanced by the trustees to complete the building.

This suit was brought September 24, 1901, and has since been pending. W. W. Hampton of this city and D. U. Fletcher of Jacksonville represented the plaintiff.

A FINE SERMON.

Dr. Strouse Preached to Large Congregation on Sunday Evening.

In compliance with the announcement of Sunday, the Presbyterian, Methodist and Baptist churches joined in a grand union and welcome service to Rev. Clarence B. Strouse Sunday evening, upon the occasion of his return from Denver, where he has been assisting in one of the greatest and most successful revival services ever held in the West.

The sermon upon this occasion was delivered by Dr. Strouse, who used as his text Peter's Denial of the Saviour, "The Cock Crew." The big church was crowded to overflowing early in the evening, and those who secured seats were fortunate indeed.

Dr. Strouse, who is one of the most eloquent speakers in the South, held the attention of his congregation for nearly an hour, and his earnest manner had its effect. The argument was most impressive, and those who attended felt that the evening had been well spent.

Funeral of Mrs. Waller.

The funeral of Mrs. Rosa Waller, who died at the home of her brother, Clinton Crown, was held at 10 o'clock Monday morning. There was a large crowd of friends of the deceased and the family present to show their last mark of esteem and respect, and the services, which were conducted by Rev. S. B. Rogers of the Baptist church in this city, were very impressive.

The interment was in Evergreen cemetery, where deceased was laid beside her beloved mother and father, the mother having passed away only a few days ago. The pall-bearers were G. S. Merchant, L. L. Hill, O. W. McDonald, D. W. L. Barton, Alex Daugherty and O. P. Cannon.

Friends of the family express sympathy in this hour of bereavement.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected, grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened, and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women." CHUBB AT THE CAPITAL.

Washington Correspondent Dwells Upon His Visit to That City.

The Washington correspondent of The Times-Union, under date of January 30, says:

"Hon. H. S. Chubb, chairman of the Republican State Committee, was in Washington some days last week, and it was surmised that perhaps he had been summoned by the Republican leaders in defense of Judge Swayne and to substantiate the charge of Littlefield that the proceedings grew out of the intensity of partisan politics. But there was nothing in this rumor."

"The fact about the matter is that the Republican organization in Florida has not been appealed to to come to the rescue of Judge Swayne; and it would seem strange, too, that it has not been."

"The Senate investigation of the matter will, of course, be far more searching than that of the House, and no doubt many Florida witnesses will be called before the case is closed."

"But to revert to the visit of Mr. Chubb. He may have come to prepare the way for the entry of his faithful followers into the good things sealed into the party by the balloting in the ides of November, but Mr. Chubb didn't say so."

"What he said was that he came in behalf of the Board of Trade of Gainesville, to see the Florida members for an increased appropriation for the Gainesville public building. He called with Senator Davis upon the Assistant Secretary of the Treasury, where the needs of Gainesville were strongly presented, and where they were promised a favorable recommendation for an increase from \$35,000—the original appropriation—to \$80,000. If there is a public building bill at this session, Gainesville will be in it."

Col. Chubb, who returned to his duties here several days ago, has never been induced by The Sun to state exactly the nature of his visit to Washington; but being one of the Republican leaders of Florida, makes trips to Washington at frequent intervals, especially at this season. Col. Chubb, with other distinguished Republicans of Florida, will no doubt "be there" at the inauguration of the President.

A Citra Sensation.

Information has reached this city to the effect that a sensation was furnished for Citra Saturday night.

A big, dark negro entered the home of a widow lady near that place and concealed himself under the bed. Upon retiring the lady discovered the brute and made the alarm. Her daughter quickly responded and assisted the mother in capturing the negro, who endeavored to make his escape and fought vigorously. In the meantime the brother appeared and the three bound the man, took him to Citra and turned him over to the officers. The man was taken to Ocala for safe keeping.

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 25 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. COL. LLOYD PLEASED.

Has Made Seventeen Trips to Florida and is Loud in Its Praise.

Among Florida's best and most sincere friends is Colonel J. B. Lloyd of Indiana, who is here for the season with his estimable wife, being comfortably located at the home of Mrs. Foster, corner West Main and Church streets.

"I have been coming to Florida since 1878," remarked Colonel Lloyd to a group of friends as they stood in the open sunlight and tried to get warm a few frosty mornings ago, "and taking it for granted that it does get a little cool once in a while, I think Florida is the greatest State in the Union. Just think of the poor fellows up in my home this morning. It is true we are a little chilly here, but just think of the weather they are facing there now. A fellow hates to poke his head out of doors, while we are all around here enjoying this bracing atmosphere."

Col. Lloyd is now on his seventeenth visit to Gainesville. He has not missed a season for twenty-eight years when it was possible for him to come, and says he proposes to make Florida his winter home for the balance of his life. He has many friends in this section who are glad to hear him say this.

ROAD HAS BEEN LOCATED.

Commissioners Decided to Construct Same on the Newberry Road.

It appears that the reporter of The Sun has been misinformed in regard to the location of the proposed object lesson road which will be constructed by the United States government here at an early date. In a write-up of the matter in its issue of Saturday, the report was made that no definite route had been selected, but reference to the minutes of the Board of County Commissioners for December show that the route designated was the Newberry road. The official record in this matter says:

"Ordered, That \$1,000 be appropriated for the use of the government experts in building one mile of hard road from Hog Town Creek west, out of such material and in such manner as the experts may deem best."

The road machinery, which has been en route from Beaver Dam, Va., is expected daily, when work will begin at once.

Miss DaCosta Entertained.

Miss DaCosta entertained the teachers of the Gainesville Graded and High School Saturday evening last, at the home of her parents on East Main street N. Finch was played until a late hour when delicious refreshments consisting of several courses were served.

All pronounced Miss DaCosta a highly entertaining hostess.

The Chinese government promises to remain neutral. The Boxers are yet to be heard from.

The Weather Bureau announces that four-fifths of its weather predictions are correct.

The question at present is who controls the Ozar, his mother or wife? It is quite evident he has lost all self-control.

The Connecticut farmers may produce wooden nutmegs, but they can't raise Sumatra tobacco for wrappers for cigars.

There is compensation for Frank S. Black in having failed to reach the Senate. If he had succeeded he would not have been called to defend Hannah Elias.

LaFollette, the new Senator from Wisconsin, says he is a man of the people. But he will be sure to help along any scheme to strike a blow at the railroads.

The newspapers are predicting peace in industrial circles from the diminished number of strikes. Let them wait until the weather is warmer and see if the strikes do not flourish once more.

Mr. Rockefeller says we live too fast and eat too much. With the idea of reforming the latter the multi-millionaire milk and cracker eater has established his fifty-cents-a-day hotel in New York.

Roath, the Chicago millionaire, has started the distribution to his relatives of his second million dollars. There is no danger that he will fancy the country menaced by race suicide by the time he has finished.

General Stoessel, the hero of Port Arthur, was reported to have a small army, but about six weeks ago it was said to number 17,000. The Japs and scurvy reduced it so he only surrendered 24,000 and another hero bubble is exploded.

The latest prediction from Washington is that railroad legislation, so far as the present Congress is concerned, is dead. But the President may call a special session next fall, for he certainly will have to take some action if he waits until the next regular session.

The cold storage of fruit has grown to large proportions, nearly 3,000,000 barrels of apples having been stored in the United States during the last winter as a result of investigations during the past year. It is found that the condition in which the fruit is grown and the manner of handling it determines to a large extent its keeping quality and ultimate value.

County Tax Collector W. D. Dickinson states that collections are very good, and that property owners from every section of the county are paying their taxes cheerfully and promptly. As a result he is keeping well occupied at his office issuing receipts. The fact of these prompt payments is one of the most convincing evidences of the prosperity of the people, who as a rule were never in better condition from a financial standpoint.

ORANGE CROP SAFE.

While the recent cold snap reached generally throughout the State and resulted in some damage, the West Coast peninsula suffered less than any other section, so far as reports received from that section indicate. These reports are not merely on paper, but are in evidence in the substance.

Division Superintendent H. A. Ford of the Atlantic Coast Line has received samples of oranges from the various sections south of Trilby, as far as St. Petersburg, and investigation demonstrated the fact that this fruit was not at all injured. The fruit was perfectly sound and juicy, possessing an excellent flavor.

H. E. Dickens, agent of the Atlantic Coast Line at St. Petersburg, telegraphed Superintendent Ford that a careful inspection of nine groves revealed the fact that the fruit in that section was uninjured.

Superintendent Ford stated that, from the best information obtainable, considerable fruit north of Trilby was damaged, but the trees are unhurt. The younger trees, however, may shed their leaves, but this will be the only result.

This will be gratifying information to those who felt sure the orange crop throughout that section was destroyed.

One of the pleasantest episodes of the past week was the meeting of Mr. William Jennings Bryan and Mr. Theodore Roosevelt in the White House, as it is another indication of cordial intent and the subsidence of that bitter feeling which politics engenders. Such meetings of leaders of opposing political forces are rare in history and cannot elsewhere be seen in modern times, except perhaps in England, and even there it is not as conspicuous as in this country. The writer well remembers the astonishment of a group of foreigners when it was explained to them that Mr. Harrison, the defeated President, and Mr. Cleveland, the elected President, would ride in the same carriage down Pennsylvania avenue to the inauguration stand east of the capitol.

Two weeks ago tariff reform was in the air, excluding every other national question. Now it is almost as completely folded away as free coinage of silver, and the regulation of railway rates is the imminent question; almost as intricate as the tariff itself. The indications are that the President has a powerful backing on this question and that some Western Senators owe election to their advanced position on this question alone. Moreover, the Bryan wing of the Democratic party, or is it not both wings, are in favor of the measure and at a recent caucus of the Democratic members of the House the measure had almost unanimous approval, and if it is defeated the onus will not be on the Democratic party.

Wm. J. Bryan recently addressed the Y. M. C. A. of Washington, D. C., at its Sunday meeting, after which a collection was taken, and when the witty secretary remarked that "any kind of dollars" would be accepted, Mr. Bryan reached in his pocket and drew out a bright silver one and with his famous magnetic smile walked over and placed it on the table. It is needless to say that Mr. Bryan bagged the house.

The Lewis and Clark Exposition, which is to be held in Portland, Oregon, the coming summer, is very generously sending out columns of exclusive puffs for the papers of the country, but the cash is not yet forthcoming. Cream puffs are very toothsome, but we fail to discover the cream in the package received at The Sun table.

The election investigation in Colorado developed the fact that mules were actually voted. If this plan is adopted in Missouri there is no telling what the Democratic majority will be.

Mme. Humbert, the celebrated Paris financier, has been very sick since reading of the achievements of our Mme. Chadwick. She feels that she has been outclassed.

Korea is busy trying to figure it out where she will stand when the thing is over. She will probably find that there won't be any "core."

The annual "Carter Harrison retirements," which were sent out so regularly, are thought to have prepared him for a literary career.

Senator Depew evidently believes in keeping men in the Senate not for what they are worth, but for what they have done.

NOTHING TO FEAR.

Although there may be times when it would seem to those who are the least bit inclined to pessimism that the way seems burdensome to those who are struggling for the advancement and progress of the fair State of Florida, our resources are so inexhaustible that there are hardly any obstacles—at least none have yet appeared—that are insurmountable by the sturdy sons of the Peninsular State or our adopted citizens who have come here to make their home, being driven from their Northern homes by the elements that rob them of health, which, taken from the human family, also means unhappiness.

Within the past few days the people of Florida have been put to the test, and by the destructive elements of wind and cold our very existence seemed threatened. Some despaired, while others were inspired by the injunction that "the Lord helps those who help themselves," and went to work to do battle with the elements. While the prospect was gloomy, the result has shown that the men who are determined in their efforts are not heavy losers, and there will only be a smaller supply, many crops having been saved.

But the soil of Florida is so varied that other crops than those that are so generally grown can be planted, and the trucker, although checked for a time in his labors, can turn to most any vegetable grown and in a short time produce a crop that is always in demand.

A rotation of crops is also a good thing for the producer, for by so doing the market is less liable to become glutted in one particular line, and in consequence the prices will range higher and what has seemed a misfortune at first glance, will in the end prove a benefit.

Many people who come to Florida are in search of a home where they can escape the severe weather of the North, and many wonder if the country is growing colder. From statistics one learns that in 1768 all the lime, citron and banana trees were killed by frost in the vicinity of St. Augustine, as well as many curious evergreens on the St. Johns River, and from time to time since that time we have had reverses that have done temporary damages, which have proven a blessing in later years, as they have turned the attention of the husbandmen to less hazardous pursuits.

With so favored a climate and thousands of delicate people in our midst in search of health, the least severity in the weather is heralded to all quarters of our country; yet at its worst it is far preferable to the more rigid climates, and the invalid foregoes the one or two days of disagreeable weather, while the farmer knows there is no great calamity in store for him, and he has nothing to fear—no cause to give up in despair.

Sunshine will soon come, flowers will bloom, it will be summer time in the "land of sunshine and flowers."

Both Democrats and Republicans seem to be falling over each other in their haste to get there on the railway rate regulation measure. Mr. Bryan's presence in Washington and call at the White House may have done something to promote the great and harmonious stampede.

An advertisement in an English paper says: "Wanted—A general workman. One that can do anything." Unfortunately the advertiser doesn't mention the wages he is willing to pay, but we may take it for granted that he would yield up at least \$5 or \$6 a week to the right party.

There is some cause for alarm in regard to President Roosevelt. In praising the works of Mistrail, the French poet, he says his effusions teach the active business men of the West "that besides the nation's body there is also the soul." Lackadaisical Theodore.

Fletcher, the automobilist who made one hundred miles in one hour, eighteen minutes and twenty-four seconds, must have felt a similar sensation to being blown up with dynamite. It would make a person cross-eyed to watch such flying very long.

A new cement industry is the making of shingles out of cement. It is said they cost about as much as slate roofing, but are superior in that they are made with ridges and grooves which fit together and prevent water backing in between them.

The new crop of United States Senators is as large as ever, but very few of them could stand an X-Ray inspection.

Women in Our Hospitals

Appalling Increase in the Number of Operations Performed Each Year—How Women May Avoid Them.

Miss Ruby Mushrush

Mrs. Fred Seydel

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, who are either awaiting or recovering from serious operations.

Why should this be the case? Simply because they have neglected themselves. Ovarian and womb troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhoea, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervous-

ness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one tried and true remedy.

The following letters cannot fail to bring hope to despairing women.

Mrs. Fred Seydel, 413 N. 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"I was in a very serious condition when I wrote to you for advice. I had a serious womb and ovarian trouble and I could not carry a child to maturity, and was advised that an operation was my only hope of recovery. I could not bear to think of going to the hospital, so wrote you for advice. I did as you instructed me and took Lydia E. Pinkham's Vegetable Compound; and I am not only a well woman to-day, but have a beautiful baby girl six months old. I advise all sick and suffering women to write you for advice, as you have done so much for me."

Miss Ruby Mushrush, of East Chicago, Ind., writes:

Dear Mrs. Pinkham:—

"I have been a great sufferer with irregular menstruation and ovarian trouble, and about three months ago the doctor, after using the X-Ray on me, said I had an abscess on the ovaries and would have to have an operation. My mother wanted me to try Lydia E. Pinkham's Vegetable Compound as a last resort, and it not only saved me from an operation but made me entirely well."

Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

RELIGIOUS GROWTH.

The common idea that religion is on the decadence and that the various "sects" are not holding their own in proportion to the increase of population is shown not to hold good by authentic statistics just made public in the Presbyterian Hand Book for 1905. They show by the official figures a larger percentage of increase by nearly all the various sects in proportion to population than in any previous year. Such is notably the case in the Episcopal church, which last year gained three per cent on its membership of the previous year, while the population growth is estimated at about two per cent. In the Presbyterian church the increase in membership was at the ratio of 2.5 per cent. The Methodist gain was 1.8 per cent. It is further stated in the Presbyterian Hand Book for 1905 that the religions of the world have 1,430,000,000 adherents, divided as follows:

Christianity.....	477,080,158
Confucianism.....	256,000,000
Hinduism.....	190,000,000
Mohammedanism.....	178,834,372
Buddhism.....	147,900,000
Taoism and Shintoism.....	57,000,000
Judaism.....	7,065,000
Various heathen faiths.....	118,129,479
The adherents of Christianity are divided into the following branches:	
Roman Catholics.....	230,866,583
Protestants.....	143,237,625
Greek Church.....	89,016,000
Church of Abyssinia.....	300,000
Coptic Church.....	120,000
Armenian Church.....	1,890,000
Nestorians and Jacobites.....	150,000

An English court has decided that a man who earns his living by a profession, trade or other occupation is not a "gentleman." According to that definition any number of "gentlemen" can be found in America if one will take the trouble to hunt them up in barrel houses, haystacks and box cars.

There is one redeeming feature about cold weather in Florida. We may have a few disagreeable days, but it never has developed into nine months of winter and the other three months might as well be the fall.

Since Tom Lawson asserted that ten men will soon own the whole country, John D. Rockefeller wants to know who the other nine are to be.

It is stated that Russia's war bill up to date is as follows: Lost, human lives, 100,000; lost, one fleet, \$50,000,000; lost, one fortress, \$200,000,000; general expenses, \$300,000,000. Total expenditures, \$550,000,000 and 100,000 lives.

The Russian bluff that they had defeated the Japs at Mukden only proved a boomerang. When it was learned that the Ozar's troops were repulsed, the rioters proceeded to blow open the political prisons and turn loose the inmates.

Senator Morgan of Alabama thinks the Nicaraguan Canal would have been completed in a few years if the country had followed his advice and taken that route, instead of buying a \$40,000,000 mud-hole in Panama.

The estimate is made that in the last twenty years 320,000 divorces have been granted in this country. One would imagine from newspaper reports that the number would be a million or more.

The Republicans in Congress are trying to make trouble between John Sharp Williams and the Democratic minority which he has lead with so much ability. John "Sharp" is a thorn in their side.

When ten men own the United States the people will at least know where to place the responsibility if things are not satisfactory.

As there are only three editors out for the gubernatorial nomination in Georgia, the others must be waiting until the next time.

England, Germany, France and the United States have formed a combination for the purpose of keeping Russia from invading China.

This country last year had fewer lynchings than in any previous year since 1895. That is something worth shouting about.

Oklahoma wants it understood that she can govern herself a great deal better than the old States are governing themselves.

LAND OFFICE ENJOYS IMMENSE BUSINESS

It Will Aggregate More Than
\$100,000 Annually.

THE FORCE IS KEPT BUSY

Attending to Various Branches of the Department Which Dishes Out Government Lands to Home Seekers—January Report.

It will probably be a surprise to the majority of people to learn of the immense business transacted annually in the United States land office in this city. The business will easily aggregate on an average of more than \$100,000, as the books of the office will show.

There is probably nowhere in the employ of the government service a more competent or more obliging force than those who have the destinies of the public lands of Florida. The entire force is courteous and obliging, and always pleased to impart information concerning the public lands, the mode of procedure in making homestead entries, final proofs, etc. Register Robinson and Receiver Chubb have directed the affairs of the land office in a most systematic manner, with the result that they are in such condition that any desired record or paper can be found without a moment's delay.

The office force consists of Louis C. Lynch, chief clerk, and a clerical force of L. J. Clyatt, J. E. Wainwright and Harold Arnold. This force are hard and competent workers, which is best evidenced by the great volume of business transacted through the office yearly.

Chief Clerk Lynch has furnished The Sun with the following report of business for the month of January:

116 homestead entries, 18951.39 acres; 46 final homestead entries, 5243.77 acres; 18 military B. land warrants, 2274.90 acres; 6 agricultural college scrip, 957.74 acres; 72 excess cash entries, 307.34 acres; 1 soldiers' D. S., 160 acres; 1 timber and stone entry, 160 acres.

A CARD TO PATRONS.

Principal Kellum Anxious That They Should Watch Children.

Attention, Patrons: The first half of the present school term closed last Friday, January 27th, and I deem this an opportune time to have a word with each patron. Owing to the lack of time, it is impossible to see each one personally; I therefore take this method of having a word with each.

Every teacher has and is laboring earnestly for the advancement of your children. We need your assistance constantly, and urge it now, as the reports of the examinations of the fourth month reach you. Look over the cards carefully and see if the marks are what you think your child capable of—if not, then please investigate.

The teachers can only instruct the pupils; it is impossible to study for them. Insist on text books being brought home for private evening study, as the short space between recitations is insufficient for study, especially in the higher grades where the work demands outside study and research. Note the marks in attendance and punctuality and if below one hundred endeavor to see that your child is present every day and on time. Please sign the card and return in three days.

Help us and we promise good work.

Respectfully,
J. G. KELLUM.

TURNER A BAD COON.

Dug Way Under Micanopy Jail and Made Escape, But Arrested Here.

Deputy Sheriff C. H. Chrisman of Micanopy Tuesday took Nelson Turner, a negro arrested here upon his instruction, to Micanopy. Turner was wanted by the Micanopy authorities upon a charge of jail breaking. Several weeks ago he was arrested by Officer Chrisman for gambling and placed in the town jail. During the night he dug his way under the ground and gained his freedom, since which time he has been at large up to Monday, when he was arrested here.

Turner is a "hot proposition" sure enough. Since his escape from the Micanopy jail he was arrested here by Deputy Sheriff Granger, who caught him, with five others, in a crap game. He was arraigned before Justice Coleman and "fined \$25 and costs, which he promptly paid and was released from custody.

THE NEWS FROM ARCHER.

A Shooting Affray—Junius Jackson Discovers Bones—Other Notes.

Archer, Jan. 31.—Mr. and Marion Smith entertained a few of their friends on Thursday evening. The house was beautifully decorated with red Japonicas and ferns, making everything look lovely. At 6 o'clock an elegant dinner was served, and the evening was very pleasantly spent. Mr. and Mrs. Smith as entertainers have a reputation, and on this occasion they retained this reputation with grace and dignity.

Doctor Siprell and Doctor Jarvis, dentists, were doing business in Archer this week.

Mr. and Mrs. Jas. Skinner entertained a party on Friday evening.

Junius Jackson, a colored man near town, in digging a well to the depth of twenty-five feet, came upon a bed of bones of very large size, taking out about twenty-five pounds.

There was a shooting affray at the residence of Rev. Dancy on Saturday evening which resulted in a serious wound inflicted on Joe Hamilton by Frank Dancy. It is said the parties were drinking. Dancy was arrested. All are colored.

License Notice.

I was not supplied with license blanks until the day court convened last October. The State's Attorney asked me to report at that session of court, but in view of the fact that the blanks had not been furnished me in time for licenses to be issued, he consented to my making no report at that time, but instructed me to have report ready for spring term of court, which convened this month, and to file information with him against all who did not comply with this requirement of the law by this court.

There are quite a number of businesses and professions who have not as yet complied with this law. I am now getting up this list, and those who have not taken out such licenses, if they desire not to be included on this list, must attend to this matter very soon.

Respectfully,
W. D. DICKINSON.

HYDE'S FRUIT SAFE.

By Perseverance and Firing Crop of Nearly 400 Boxes Was Saved.

The Ocala Evening Star of Monday, January 30, says of the grove owned by George W. Hyde of this city:

"Tom Pritchett came up from Candler today, and had with him a twig on which were oranges from the Geo. W. Hyde grove, which passed through the freeze all right, but it was done by hard work for three nights in firing the grove. The grove has nearly 400 boxes of fruit on it. Mr. Pritchett employed six men to assist him, and during the cold wave the fires were not allowed to go down. He said the mercury ranged from 26 to 36 degrees. He is very proud of his success, and sold 100 boxes to Ocala dealers, which more than easily paid the freight. The twig with its fruit is in The Star office."

Grove Park, Feb. 1.—Orange trees are looking bad from the recent cold weather.

The family of J. J. Gay left a few days ago for Tampa, where they will make their future home. These are estimable people and we regret to lose them from our community.

A. Jeremiah Weeks of Hastings has accepted a position with Gay & Co. at this place, as sawyer.

S. F. Waits is beautifying his residence with a coat of paint.

The residence of W. L. Lindsey on N. Main street is rapidly nearing completion under the supervision of Contractor J. J. Lindsey.

J. J. Gay, who has been connected with Gay & Co., at this place for the past two years, has disposed of his business interests here and accepted a lucrative position with J. E. Howell, manufacturer of yellow pine lumber at Leta, Fla.

E. A. Perry, who came here some time ago from Indiana Harbor, Ill., to spend the winter, left a few days ago for Miami, where he will make his future home.

Capt. J. L. Brown of Magnesia Springs was in town yesterday.

James Holder and M. Mansfield of Rochelle were here yesterday looking after the business interests of Holder & Pope.

R. H. Knapp and family will leave in the near future for Leta, where Mr. Knapp has accepted a position as inspector for J. E. Howell, manufacturer of lumber.

Rev. Moseley of Rex will preach at the Methodist church here next Sunday afternoon at 4 o'clock.

Roy Brown is now holding down the position of express and freight agent at this place. He is also acting as assistant postmaster.

The News From Rex.

Rex, Feb. 1.—Our section has suffered some from the recent cold spell, but we are glad to report that orange trees are not killed in this section—will only lose their coat of green leaves. Cane seed is injured in some localities and the farmers will have to

Rev. Chas. Leander.

A Pleasure to Endorse Pe-ru-na.
Rev. Chas. Leander, pastor First Spiritual Society of San Francisco, writes from 811 Turk street, San Francisco, Cal., as follows:

"It is with pleasure that I give my endorsement of Peruna. My experience has been very satisfactory from its use, and I do firmly believe that it is the best known remedy for catarrh in all its different forms."—Chas. Leander.

No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Peruna.

use the stubble for seed in many instances. Farmers in this section are cleaning up their lands preparatory to planting.

The many friends of Mr. and Mrs. C. W. Agin of Cincinnati are glad to have them here with us for a few weeks. They own a beautiful home here and are looking after their interests. They once owned a forty-acre orange grove here before the fatal freeze of '95. After an absence of several years they decided to come back and visit their Florida home, and enjoy our lovely climate.

Miss Nannie McIntosh came home last Friday and brought her cousin, Miss Myrtle Fennell, for a visit for a day or so. Their friends were glad to see them.

LaGrippe is raging in our little community; however, it is a lighter form than we generally have. In most cases it is affecting the school average.

Mrs. Steegal of Center is visiting her brother, J. L. Townsend. Her friends are glad to have her with us. She is a most estimable lady.

Mrs. Caudie and Miss Lottie Teeter made a visit to Orange Lane Sunday.

New Shooting Range.

Ringgold, Ga., Jan. 31.—The government is going to establish a shooting range about 4 miles east of Ringgold and adjacent to Catoosa Springs, which is now owned by General Baldwin. They have leased the lands belonging to Mrs. Fannie Harris, W. M. Fain and B. F. Harris, and will later make it permanent. This, it is thought, will greatly help this part of the country, as well as encourage the new electric railway which is now being surveyed from Rossville, Ga., via the National park to Ringgold and on to Catoosa Springs and other points.

14,000 Acres of Timber Sold.

Valdosta, Ga., Jan. 31.—The large milling interests of the Buffalo Yellow Pine company, at Haylow, Ga., have been sold to D. F. Aldrich, of New York, who will erect a large mill on the site of the one burned nearly a year ago. The deal was made this week by J. D. Rounds, of the Buffalo company, and includes about 11,000 acres of timber. This leaves the latter company with only about 3,000 acres left in this section.

CONFESSES TO ROBBING MAIL.

Charles Gilbert Claims He Can Neither Read Nor Write.

Raleigh, N. C., Jan. 31.—Charles Gilbert, the mail carrier between the mountain towns of Burnsville and Ivy, who is in jail for robbing mail pouches, has made a full confession to Post-office Inspector Reddy.

He first succeeded in getting some registered letters through a hole with a stone in a pouch, this time getting \$2,230, all except \$30 in checks. He did not know that the checks were useless, so far as he was concerned, so he buried them and the registered letters, pocketed the money and resigned as carrier. He then rodd around that section looking at various farms, intending to buy one with the checks. Gilbert is young, says he cannot read or write and that he does not know a \$1 from a \$10 bill. He is now in jail at Burnsville.

Norfolk Has Conflagration.

Norfolk, Va., Jan. 31.—Almost a score of buildings were destroyed or seriously damaged by the fire which started in C. R. Nash's ice warehouse on Queen street, Portsmouth, early Sunday morning. The loss is placed in the neighborhood of \$50,000. But for the heroic work of 250 United States marines, sent by Admiral Harrington, from the navy yard, with a yard fire engine, together with assistance rendered by Norfolk Engine company, the entire business section of the city would have been swept away. The fire started at half past 1 and was not controlled until 4 o'clock.

Dies at Age of 115.

Atlanta, Jan. 31.—After living 115 years, Caroline Woodward, a negro woman whose home was on Magnolia street, between Mangum and Elliott streets, died early Saturday morning. Up to about six months ago Caroline was able to move around in quite a lively fashion, and never a complaint was heard from her lips, but paralysis set in, and she was forced to take to her bed. Age had so destroyed her vitality and weakened her system that she was unable to overcome the attack of paralysis, and with four generations of her family around her she at last yielded to the call of death.

Doubtful Economy.

"Of course," he said, "I appreciate the motive that actuates you in your efforts to get along without a girl, but—"

"Well?" she said inquiringly as he paused.

"Taking everything into consideration," he went on, "is it true economy?"

"Isn't it?" she demanded.

"Well, I hardly feel competent to pass judgment on the question," he replied. "I have just received our family physician's bill for the treatment of those three cases of acute dyspepsia that developed in the family during the last month. Now, perhaps—"

But she was just as mad as if he hadn't tried to break it to her gently.—New York Press.

PRESIDENT SENDS CONGRESS MESSAGE

Wants Statistics On Marriage
and Divorce Published.

DECISIONS OF SUPREME COURT

They Decide that There Exists In
This Country a Beef Trust—Colo-
rado Election Case Before That Tri-
bunal—Other Washington News.

Washington, Jan. 31.—The president sent a message to congress today calling attention to the fact that no statistics on marriage and divorce had been collected since 1886, and recommended legislation.

The following is the text of the message:

"To the senate and and house of representatives: I call the attention of congress to the fact that no statistics have been collected by the federal government on the subject of marriage and divorce since 1886, and that but few of the states have provided for these statistics. The institution of marriage is, of course, at the very foundation of our social organization, and all influences that affect that institution are of vital concern to the people of the whole country. There is a widespread conviction that the divorce laws are dangerously lax and differently administered in some of the states, resulting in a diminishing regard for the sanctity of the marriage relation.

"The hope is entertained that co-operation amongst the several states can be secured to the end that there may be enacted, upon the subject of marriage and divorce. I deem the matter of sufficient general importance to recommend that the director of the census be authorized by appropriate legislation to collect and publish statistics pertaining to that subject securing the statistics from 1886 to the present time.

"Theodore Roosevelt."

Decision Against Packers.

Washington, Jan. 31.—The supreme court of the United States today decided the case of the United States versus Swift & Co., known as the beef trust, charging conspiracy among the packers to fix prices on fresh meats, etc. The opinion was handed down by Justice Holmes and affirmed the decision of the court below, which was against the packers.

In his opinion Justice Holmes discussed at length the various contentions of the packers and disposed of them individually. He admitted that some of the charges were less specific than desirable, but said this was necessarily true, on account of the vast extent of the field covered. He added that sufficient cause had been shown to prove continued offenses and an offense of such a nature to justify the proceeding. The opinion, continued the injunction granted against the packers under the Sherman anti-trust law by the lower courts. The opinion was concurred in by all the members of the court.

The supreme court of the United States today denied the application of Machen, Lorenzo and Groff for a writ of certiorari in the case against them charging conspiracy to defraud the government in connection with the postoffice department irregularities. The effect is to leave standing the decision of the court of appeals of the District of Columbia finding them guilty as charged. Machen, Lorenzo and the Groffs were sentenced to two years in prison, and to pay a fine of \$10,000 each.

The so-called Denver election fraud cases found their way into the supreme court of the United States today in the shape of a petition for a writ of habeas corpus which was presented by United States Senator Patterson. The cases covered by the petition are those of Peter Miller and Thomas Shepperson.

In the House.

Upon convening today the house agreed to conduct memorial services in respect to the late Senator Hoar, on Sunday, Feb. 12, at noon.

The conference report on the legislative, executive and judicial appropriation bill was called up by Mr. Lattauer, of New York.

In the Senate.

When the senate convened today Mr. Platt (N. Y.) presented the certificate of election of his colleague, Mr. Depew.

A bill extending to the Philippines the provisions of the revised statutes concerning the extradition of fugitives from justice, was passed.

The inventor of the famous "TERRILL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 12 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Plow Co., Atlanta."

WAGON DRIVERS' STRIKE.

Nine Hundred Men Ask for Better
Wages in Windy City.

Chicago, Jan. 31.—Nine hundred lumber wagon drivers struck here today. Operations of firms comprising the Lumbermen's Association concerns that control the supply of lumber for building, the flooring mills and the sash, door and blind and box factory of the city, were affected.

One hundred firms are affected and they assert that they will stand together in opposing the demands of the drivers. The drivers affected belong to the Lumber, Box and Shavings Teamsters' local of the International Brotherhood of Teamsters.

Since last December they have been seeking an increase of wages for drivers of two-horse wagons from \$13 to \$14 a week. No increase is asked for single drivers, who have been getting \$12. The employers would concede no advance.

Three Hurt in Wreck.

Portsmouth, O., Jan. 31.—Westbound passenger train No. 21 on the Norfolk and Western "side swiped" a freight train at a siding just outside the city Sunday night, and Engineer Benjamin Anson, of the passenger train, was probably fatally injured and Arthur Ridenour, fireman of the passenger train, and Conductor Callahan, of the freight train, were severely hurt. The passenger engine and baggage car were overturned and Anson was caught beneath the engine. None of the passenger cars were overturned, but the occupants were severely shaken up.

Killed on Way From Wedding.

Chicago, Jan. 31.—After being stabbed to death early today the body of John Schramm, 22 years old, was placed on a pool table in a billiard hall. According to the police Schramm was attacked by two men while he was on his way to his home from a wedding. His assailants then carried his body into the billiard hall and left it there.

spells, palpitation, fluttering,
pains around the heart, in side
and shoulder; or hurt when
lying on left side?

If you have any of these
symptoms your heart is weak
or diseased, and cannot get
better without assistance.

Dr. Miles' Heart Cure
strengthens weak hearts, and
rarely ever fails to cure heart
disease. Try it, and see how
quickly you will find relief.

"About January 1st, 1902, I took
down with weakness and droop-
ing and gradually grew worse. I was told
by my family physician that my case
was hopeless. My neighbors and family
had given me up to die. My
limbs and body were swollen to one-
third larger than normal size, and
water had collected around my heart.
For at least three months I had to sit
propped up in bed to keep from smother-
ing. I sent for five bottles of Dr.
Miles' Heart Cure, and by the time I
had taken them all I was entirely
cured. I feel better than I have for
twenty years, and I am able to do
any kind of work on my farm. My
attending physician told me that if it
hadn't been for Dr. Miles' Heart Cure
I would now be in my grave."

L. T. CURRY, Wilmore, Ky.
Dr. Miles' Heart Cure is sold by
your druggist, who will guarantee that
the first bottle will benefit. If it fails
he will refund your money.

PRODUCE AND SAVE YOUR MEAT

For the information of those who de-
sire to have their hog meat cured in
our cold storage we recommend the
following method of preparation:

As soon as the butchered animal has cooled
down, cut up and trim to perfect shape, leav-
ing chine bones on hams, and blade bones on
shoulders; salt in the usual manner, using not
more than 10 pounds salt, 2 ounces brown sug-
ar, 2 ounces saltpeter and 1 ounce red pepper
to each 100 pounds of meat. It should reach
the cold storage not later than three days af-
ter so prepared. If any additional salt is need-
ed after reaching us, we will supply it. Leave
in cold storage 45 to 60 days, according to size
of meat. After taking from cold storage wash
in warm water and dry, then wrap or sew up
closely in muslin, so as to prevent attacks from
flies or other insects; hang up and smoke at
intervals for three weeks. It will take smoke
perfectly through the muslin. Green hickory
wood makes the best smoke. When dry, take
down and pack in boxes, a layer of oat straw,
then one of meat, etc., and you will have as
fine meat as can be produced, until following
season.

Parties having railroad facilities may with
perfect safety ship by freight and have it re-
turned same way. Mark plainly to us and also
your name on box or barrel and mail as bill of
lading. Prepay freight at shipping point. Our
charge for storage is one cent per pound for
one month. We also wish to buy hogs dressed.
We solicit patronage in perfect confidence to
give entire satisfaction, and feel that our en-
terprise is of the greatest benefit to the far-
mer.

Mobile, Ala., Dec. 24, 1890.
Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking The Texas Wonder, Hall's Great Discovery, and being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder." Yours truly, W. B. CLARK.
M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Taken Up—About December 1, a small bay mare came to my place, about three years old. Owner will apply to J. L. Matthews, Bland, Fla.

P. G. Ramsey of Wacahoota, ex-member of the Board of County Commissioners and one of the leading citizens of his section, was a visitor to the county capital yesterday.

Miss Jessie Bodiford is at home again, after a pleasant visit to friends at Tallahassee, Quincy, Live Oak and other points in West Florida. The friends of this young lady are delighted to welcome her home again.

T. W. Brown has returned from Lake City, where for the past ten days he has been on business. Mr. Brown states that the orange trees as far north as Lake City suffered no material damage from the recent cold snap. Only the young trees, if any, will shed their leaves, and as a result the growers are happy.

Information reached this city yesterday to the effect that Furman E. Williams is very ill with typhoid fever at his home in Alachua. Mr. Williams is one of the leading citizens and business men of the county, and it is hoped by all who know him that there will soon be a change for the better.

Mrs. H. M. Peake of St. Petersburg, wife of the popular conductor of the High Springs-Citra run, Atlantic Coast Line, was in the city for a short time Monday. Mrs. Peake was en route home from Citra, where she has been on a pleasant visit to her husband. Captain Peake is seriously considering the removal of his interesting family to Gainesville.

Remember the supper to be given by Colfax Rebekah Lodge, I. O. O. F., at the opera house Friday evening for the benefit of the Grand Lodge of Odd Fellows, which will convene here in April. There will be all kinds of good things to eat, daintily and temptingly prepared, and the prices will be very reasonable. Let everybody come and enjoy a fine supper, well prepared, at a reasonable price.

Harry Thomas and Mahala Jones, colored, were married in the office of Judge Mason yesterday, the genial Judge being called upon to perform the ceremony, which he did in his usual graceful and dignified manner. The ceremony was performed in the presence of a great many friends and others who had been attracted to the scene, at the conclusion of which the Judge caused the usual salute.

Col. Fred Cuddeberly of Cedar Key, collector of customs for the ports of Cedar Key and Port Inglis, was in the city yesterday. Col. Cuddeberly reports the usual number of vessels loading phosphate at Port Inglis. A large steamer is expected daily with a large cargo of coal. The American Fertilizer Company are now erecting immense acid chambers, and will ship abroad the super-phosphate instead of the crude rock.

After a pleasant visit of several days to her parents, Mr. and Mrs. E. J. Baird, East Gainesville, Miss Laura Baird returned yesterday to Jacksonville, where she is receiving instructions in St. Luke's Hospital for a trained nurse. The numerous friends of this young lady were glad to welcome her home again.

With a desire to keep up with the times and supply their customers with the latest beverages, the Gainesville Bottling Works have added several new creations in the soft drink line, which are destined to become popular. This firm, composed of Davis & Brooks, is one of the oldest and most reliable in this section. The service has always been prompt, the products all that could be desired, and the proprietors courteous and obliging. This accounts for the success the concern has been enjoying, and will continue to enjoy.

PROMINENT VISITORS HERE.

President Erwin and Party of Atlantic Coast Line Were Here.

A special train arrived in the city last night from St. Petersburg. The train comprised three private cars and a baggage car, and brought President Erwin, Third Vice-President Emerson, Fourth Vice-President and General Manager Kenley and other officials of the Atlantic Coast Line, with their private secretaries, from Wilmington, N. C.

The party came from St. Petersburg. They are on a tour of inspection. They expect to make their departure at 8 o'clock this morning for the North.

Will Extend Railroad.

A. W. Taylor, the surveyor, left Sunday for the West End, where he has been employed to make survey for an extension of four miles of railroad for the Dutton Phosphate Company. The business of this company has been extended because of the opening of new mines, which are said to be very rich in deposits. It will prove of great financial and commercial benefit to that section.

Notice.

The Winston Company of Philadelphia failed to comply with contract to furnish books subscribed for through me. If I can find a company who publishes them, will give my subscribers a chance yet to get them. R. H. Hawkins. w5t

DEATH OF MRS. ORMAND.

Aged and Highly Respected Lady Passed Away Tuesday Afternoon.

Mrs. Nancy Ormand, mother of Mrs. W. D. Dickinson, died at the home of her daughter, 500 South University street, at 2 o'clock Tuesday afternoon, in the eighty-second year of her age. Death resulted from paralysis. Mrs. Ormand had been afflicted for some time, and, while not unexpected, her demise was received with sorrow by her numerous friends and relatives, many of whom were about the bedside at the fatal hour.

Deceased was born in Mecklenburg county, North Carolina, but has been a resident of the vicinity of Windsor since 1854, where she reared an industrious family. She was a member of the Methodist church, and an earnest and consistent Christian. She is survived by a daughter, Mrs. W. D. Dickinson, and a son, M. H. Ormand of Tampa, and several grand-children.

Friends of the family extend sympathy in this hour of bereavement.

Funeral of Mrs. Ormand.

The funeral of Mrs. Nancy Ormand, who died at the home of her daughter, Mrs. W. D. Dickinson, in this city, Tuesday afternoon, will be held at Providence Church, Windsor, at noon today, Rev. M. T. Bell of Reddick officiating. Friends of the family are invited.

ANOTHER FREEZE PREDICTED.

Chief O'Neill of Fire Department Asks That Faucets be Closed.

Another freeze is predicted for tonight, and Chief O'Neill of the Gainesville Fire Department requests all users of water to close their faucets, as in case of fire it would be difficult to secure proper pressure.

Chief O'Neill states that there is a municipal law prohibiting the running of faucets, and this law will be enforced in this instance upon all parties detected in violation. This is done for the safety of property in event of fire.

Daughters of Rebekah Supper.

The supper which the Daughters of Rebekah will serve at the opera house Friday evening, Feb. 3, promises to be a most enjoyable event. The tables will be set from 4 until 10 p. m., and a most cordial invitation is extended to all to come and partake of their evening repast with the ladies. The supper will be served a la carte as follows:

MENU—Boston baked beans, 10c; brown bread, 5c; fried oysters, 25c; stewed oysters, 25c; raw oysters, 25c; chicken salad, 25c; ham, per slice, 5c; ice cream, 10c; cake, 5c; coffee, 5c; teas, 5c; bread, butter and crackers free with oysters.

Miss Knight Will Build.

It is rumored that Miss Hattie Knight, for several years engaged in the hotel business at High Springs, will begin at once the erection of a hostelry at Homosassa. It will be remembered that the Homosassa Inn, one of the best hotels in that section, was destroyed by fire recently. It was a favorite resort for sportsmen, and during the season enjoyed a fine business. This left the place without a hotel, and Miss Knight has taken advantage of the situation to build at a point where success is assured.
